

# STIMSON IS NAMED FOR GOVERNOR OF NEW YORK

(Continued from Page 1.)

its continuance, with additional authority if required, and that all such wrong-doing capable of exposure shall be brought to light, to the end that the guilty shall be punished and the innocent relieved of unjust suspicion. Dishonesty in public service is, next to treason, the most heinous of crimes. In ridding our institutions of this cancer growth, we know no party distinction. The crimes which have been committed have involved members of both parties and the fact that some of the wrong-doers have been quarantined under the name of Republicanism has gained, not shall gain, them immunity from punishment by Republicans.

Not only have they wronged the people, but they have proved themselves the worst enemies of the party. The crook and grafter and unscrupulous man in public service shall be put out and kept out.

**NATIONAL ADMINISTRATION.** We enthusiastically endorse the patriotic and statesmanlike leadership of William Howard Taft and declare our pride in the achievements of his first eighteen months as President of the United States. Each succeeding month since his inauguration has confirmed the nation in its high estimate of his greatness of character, intellectual ability, sturdy common sense, extraordinary patience and perseverance, broad and statesmanlike comprehension of public questions and unflinching and unwavering adherence to duty.

He has strengthened our prestige

**THE REFLECTIONS OF A FARRIED WOMAN.**—I am not pleased, or overworked. She feels "played out." Her smile and her good spirits have taken flight. It comes her husband as well as herself.

This is the time to build up her strength and cure those weaknesses or ailments

which are the seat of her trouble. Dr. Pierce's Favorite Prescription regulates and promotes all the proper functions of womanhood. It cures the blood, dispels aches and pains, melancholy and nervousness, brings refreshing sleep, and restores health and strength. It cures those disorders and derangements incident to womanhood.

Dr. Pierce's Favorite Prescription is a non-secret, non-alcoholic and most potent invigorating, restorative tonic and strengthening nervine, especially adapted to women's peculiar requirements by an experienced specialist in the treatment of her diseases.

## Your Glasses Must Fit

If you value your eyesight, be sure that your glasses fit. Poor fitting glasses can do an immense lot of harm in a very short time. When I fit a pair of eyes with glasses, it's done accurately and it's done in a way that will prove beneficial to your eyes. I have made a life study of eye troubles.

with foreign nations and treated with vigor and wisdom important international problems, notably our tariff relations with Germany, France and Canada.

Under his administration, the prosecution of those implicated in the sugar trust and other economic frauds have been prompt and convictions obtained; there have been impartial and energetic enforcement of the Sherman anti-trust act; a substantial reduction of governmental expenses; the establishment of better business methods which will result in greater efficiency and cost economy; remarkable progress in the construction of the Panama Canal and the withdrawal from private enterprise of a seventy-one million acres of the public domain to preserve for public benefit valuable coal and other mineral deposits, timber lands, and water power sites.

On his recommendation, Congress has provided for a commission to investigate and report on the regulation of the interstate commerce of goods by public service corporations engaged in interstate commerce. He has advocated a new system of appropriations for river and harbor improvements, under which each item approved and carried to completion as a separate measure. This recommendation we heartily endorse.

**THE TARIFF.** The Payne tariff law reduced the average rate of all duties 11 per cent. By increasing the duties on some luxuries and articles not of ordinary use, making, however, no increase on any common food product, it turned a national deficit into a surplus. Under its first year of operation, the value of imports from 1909, the greatest in our history by \$100,000,000 and the average rate of duty was less than under the Wilson law. Unlike that Democratic law, its great reductions of duty have not stopped industry nor deprived labor of any part of its hire. It gives free trade with the Philippine Islands and it establishes a customs court. Its maximum and minimum rates give us for the first time equality of opportunity with other nations in our foreign trade.

In providing, upon the suggestion of President Taft, for a tariff board, it affords the means of still more accurately determining the difference in cost of production at home and abroad.

A Republican Congress is necessary to provide appropriations for this board and to assure business and labor that changes in rates will be made only to equalize the difference in cost of production and not to reduce rates in the free trade purely revenue basis favored by the Democratic party.

To avoid disturbance of business, we urge the adoption by the Congress of a joint rule of the two houses recommended by the President, which would consider a single bill and schedule or a single paragraph of the tariff without the necessity for amendment which would lead to a general revision.

Advances in the cost of living are only the local reflection of a tendency to rise in the world and cannot be truthfully said to be due to the present tariff.

**THE CONGRESS.** The Congress has responded to recommendations of the President of enacting measures of far-reaching importance to the people, including valuable amendments to the Interstate Commerce law, a postal savings bank law, a law providing for the publicity of campaign expenses, the creation of a bureau of mines with a view to the better protection of the miner, safety appliances and the law providing a method by which the surface of coal lands and other mineral lands is made available for agricultural use, while conserving the minerals under the surface for the public benefit.

The right of the President to withdraw public lands for conservation purposes has been set at rest by legislation and the completion of irrigation projects is assured by the authorization of \$20,000,000 bonds.

**THE COURTS.**

The test of civilization is an orderly and efficient government, one of the essentials of which is a judiciary of upright, able, industrious, courageous men promptly administering the law to rich and poor alike, without fear or favor and protecting the individual in his rights and liberties against the injustice of the mob, as well as against the greed of the powerful. We count it fortunate that the President has secured as a member of our highest tribunal, a man with the great intellectual and the splendid legal attainments of Charles E. Hughes.

**HUGHES' ADMINISTRATION.**

We congratulate the people on the notable progress of the state under the four years' administration of Governor Hughes, which has been conspicuous for the highest standards of efficiency, integrity and the confidence and intelligence of the people and championed legislation demanded by the moral sense of the community.

Through his wise recommendation and the efficient action of a Republican legislature, the public service corporations in the state of New York have been successfully taken out of politics by being placed under commissions of high character, laws have been passed extending the corrupt practices act to primaries, providing for a more scientific method of making up the state, providing for the licensing and regulation of motor vehicle traffic, strengthening the law against race track gambling; providing for restoring the forest reserve and for better protection against forest fires and making the insurance and banking laws more effective. The increase in the cost of administration of care of the insane, the insane and the dependent, the extension and increased efficiency of the public school system; the installment for the barge canal; sinking fund and the systematic building and maintenance of state highways.

**LABOR AND CAPITAL.**

The record of Republican legislation during the last eighteen years of conserving the public interest by improving the condition of labor, is equalled in our history. One hundred and thirty such enactments were written in our statutes, covering the whole range of labor's interests in the workshops, factories, mines and quarries and upon all forms of public work.

We are proud to record that New York has been the first of the American states to provide by law the compulsory compensation of employees sustaining personal injury while performing or following extra hazardous occupations and also to equalize voluntary agreement as a compensation between employers and employees in all other occupations.

We commend the law of last winter, which requires that all accidents in building construction and engineering work be reported to the Commissioner of Labor.

We believe the creation of a bureau of industries and immigration. We believe that capital, honestly employed, should be permitted to feel that sense of security essential to stimulate its legitimate investment and thus safeguard the prosperity of the state. Great areas of productive lands now idle should be brought under cultivation. Knowledge of modern farming methods should be widely disseminated throughout the state.

Under Republican legislatures, large sums have been appropriated for the extension of facilities for agricultural education, for preventing the spread of disease of animals and for the eradication of pests. We pledge ourselves to the continuance of this vital work and to the support of all practical methods of increasing the number of farm owners and furthering their interests.

We believe that an important aid to the agricultural interests of the state is the New York State Fair, and in a continuance of a policy which in making this exhibition a means of education for the farmer and producer of the greatest good.

**CONSERVATION.** In the interests of the growth and prosperity of the state, we favor the conservation of its natural resources and the utilization of all its natural resources under conditions, however, which will protect and safeguard the rights of the state.

We favor such regulation of our rivers by storage reservoirs, otherwise, as will multiply and equalize the hydraulic power, give relief to thousands of wage earners who are now regularly deprived of work during the summer months, prevent needless loss of profits to manufacturers and mercantile communities, and late the upbuilding of the state by eliminating the annual destruction of property by floods and improve unsanitary conditions and we pledge ourselves to prompt adoption of such constitutional and statutory enactments as will accomplish these ends.

**CANALS.** The businesslike methods which have characterized the construction of the barge canal under Republican administration during the last two years should be highly gratifying to all the people of the state and they are to be congratulated that the authorities to whom this most important work has been entrusted already insure its completion within the original estimates. The importance of bringing this work to a completed state at an early date cannot be over-estimated, and we pledge the party to this accomplishment.

**GRADE CROSSINGS.** The state is already committed to the policy of contributing its share towards the abolition of grade crossings, a matter which the rapid growth of our rural agricultural population is daily making of more importance and we favor a reasonably liberal appropriation by the state for this purpose.

**CONDEMNATION PRACTICE.** We urge on the legislature the re-enactment of the proposed amendment to the constitution which was adopted by that body at the last session and be ascertained by the Supreme Court, which provides that the value of private property taken for public use shall be determined by a jury, in addition to the other methods now provided by law, to the end that the gross extravagance balances that now prevail in condemnation suits in some sections of the state may no longer be imposed upon the taxpayers.

**TUBERCULOSIS.** We favor conservative state action in the prevention and cure of tuberculosis.

**ELECTION FRAUDS.** We believe that the same safeguards should surround primary elections as have been shown to be effective in preventing repeating and frauds at general elections. We, therefore, favor extending the signature law as now applied to general elections, to primary elections.

**ECONOMY.** We demand the most rigid economy in every department of the state, always with due heed to the growing needs of a great commonwealth.

**DIRECT NOMINATIONS.** To Governor Hughes is due the credit of arousing the interest of the people and convincing them of the need of directly nominating the party officials and directly nominating the party candidates. We promise legislation which will enact these principles into law.

We appeal with confidence to the intelligence and patriotism of the people for the endorsement of this platform and the election of the candidates of this convention.

# TELLS OF GETTING \$2500 FOR VOTE

Further Evidence in the Hearing Against Senator Lorimer.

CHICAGO, Sept. 28.—State Senator D. T. Holstlaw of Iuka, one of the fifty-three Democrats who voted for the election of Senator William Lorimer, on the witness stand today, testified that after he received \$2,500 and that he supposed the money was paid because of his vote.

The state senator, who until recently was a banker in Iuka, and had been prominent in the Baptist church, was the second legislator to tell the committee that money was paid because of a vote for Lorimer.

Senator Holstlaw, in response to the question by Attorney Austin, "Was anything said about payment for your vote for Senator Lorimer?" said:

"The night before the election of Senator Lorimer, I met State Senator John Broderick, who is the St. Nicholas in Springfield and he said to me: 'They are going to elect Lorimer tomorrow.'"

"I replied: 'Yes, I think so, and I am going to vote for him.'"

"He said: 'Well, there is \$2,500 in it for you.' That was all that was said. I intended to vote for Lorimer anyway, and had made up my mind three or four days before that and did not know there was a thing in it for me."

**GOT HIS \$2,500.** "Were you offered anything?" was asked and the witness replied: "Yes."

"He did not offer me anything and simply said there was \$2,500 in it for me."

"Did you get the \$2,500?" was the next question.

"Yes," was the answer. "I went to Chicago about June 16, 1909, to Senator Broderick's office and he gave me \$2,500, which he counted out of an envelope, and I said nothing to him beyond greeting him when I met him."

On further examination Holstlaw said he supposed the money was paid for his vote for Lorimer.

In response to the questions by Senator Frazer, Holstlaw said that Broderick was the first man to speak to him regarding voting for Senator Lorimer.

"Did you ask what the \$2,500 was for, or who was paying it?" queried Senator Frazer.

"No," was the reply. "I asked nothing."

**OWED HIM NOTHING.** The witness declared he had had no other conversation with Broderick relative to the vote and that he went to Chicago to see Broderick in response to a letter the substance of which was a request from Broderick to his office.

"Did Broderick owe you anything?" asked Senator Frazer.

"No," was the reply, and the same monosyllabic negative was the witness' reply to the question:

"Did you have any claim up him, and was there any reason other than your conversation before the election for his payment?"

Further in his testimony, Senator Holstlaw said that later Broderick paid him \$700.

"When I got the \$700 Broderick simply said that that was owing to me and I simply took it. I don't know what it was for."

The \$700 has been referred to as part of the alleged "jackpot" fund.

Senator Payne asked the witness if Senator Lorimer or the senatorial election was mentioned when he received the \$2,500 from Senator Broderick.

"Neither Senator Lorimer nor the senatorial election was mentioned then," replied Senator Holstlaw.

A confession signed by Holstlaw, May 28, 1910, when he was before the Sangamon county grand jury, was presented and Attorney Austin called the attention of "Broderick told me there was \$2,500 in it for me if I would vote for Lorimer."

**HAD MADE UP HIS MIND.** On cross-examination Attorney Haney brought out that Holstlaw had very frankly told many persons prior to the election that he had made up his mind to vote for Senator Lorimer.

Asked by Senator Johnson what induced him to vote for Senator Lorimer, the witness replied:

"We had tried so long to elect a Democrat and could not, I thought, electing Lorimer would make the breach wider in the Republican ranks. I naturally liked Lorimer and just made up my mind to vote for him."

"Who advised you that the time had come to vote for Senator Lorimer?" was asked.

"No one."

"Did you know that anyone was paid to vote for him?"

"No."

At the afternoon session Chairman Burrows announced that Representative White would be permitted to tell what he did with the money he said he received for his vote for the election of Lorimer and his share in the alleged "jackpot" without the ruling a precedent in other testimony.

White then began a recital of his expenditures with his payment of debts in Quincy, Ill., his home town.

White testified that he did not deposit any of the \$1,000 he says he received for voting for Lorimer in any bank, but that he kept the \$700 of it over, the custody of the cashier of a department store in East St. Louis.

He also said that he did not deposit in any bank any part of the \$900 he alleged he received as his share of the alleged jackpot.

# TELLS OF GETTING \$2500 FOR VOTE

Further Evidence in the Hearing Against Senator Lorimer.

CHICAGO, Sept. 28.—State Senator D. T. Holstlaw of Iuka, one of the fifty-three Democrats who voted for the election of Senator William Lorimer, on the witness stand today, testified that after he received \$2,500 and that he supposed the money was paid because of his vote.

He also said that he did not deposit in any bank any part of the \$900 he alleged he received as his share of the alleged jackpot.

# THE new fall suits for women are simply elegant & elegantly simple; clean cut, smooth tailoring is their chief beauty.

Unprejudiced callers have repeatedly remarked upon our splendid & tasteful selections....And they ought to be splendid, for they are the product of the very best tailors in the business.

**GENUINE RETURNS.** WASHINGTON, Sept. 28.—Census returns. Japan, 32,913, an increase of 6,950, or 23.26 per cent over 2,623 in 1900.

Springfield, Mo., 35,201, an increase of 11,954, or 51.3 per cent over 23,247 in 1900.

Richmond, Va., 127,628, an increase of 42,573 or 50.1 per cent over 85,055 in 1900.

Rome, Ga., 12,099, as compared with 7,291 in 1900.

**JESSIE MORRISON RELEASED ON PAROLE.**

Girl Is Unable to Get in Communication With Her Father.

LEAVENWORTH, Kan., Sept. 28.—Jessie Lee Morrison, who was paroled from the state penitentiary yesterday by Governor Stubbs after having served eight years of a twenty-five year sentence for the killing of Mrs. John Castle, her rival in love at El Dorado, Kan., ten years ago, left the prison for Excelsior Springs, Mo., today.

Miss Morrison was accompanied by her sister, Mrs. Ida M. Hawley of Excelsior Springs, with whom she will make her home for a time.

Miss Morrison was formally released from the prison last night and was the guest of Warden J. K. Cud-ding and wife from that time until she left. At the breakfast table today she talked of incidents of her prison life.

After the first surprise occasioned when she was told of her parole, she soon regained her composure and assumed the manner of unconcern which characterized her when she was three times tried on the charge of murder.

Her chief concern today was to communicate with her father, former Judge M. H. Morrison, at El Reno, Okla. She called him several times on the long distance telephone, but was unable to get a response. She intends to visit him soon.

Under the terms of her parole, she may go anywhere in Kansas, Missouri and Oklahoma, but not outside of those states.

**THE JANITOR PROTESTS.** It is the custom at a certain public school down in Maine for the teachers to write on the blackboard any instructions they desire the janitor to receive. The other morning the janitor saw written, "Find the greatest common divisor."

"Hullo!" he exclaimed. "Is that darned thing lost again?"—Lippincott's.

**Delicately Formed**

and gently reared, women will find in all the seasons of their lives, as maidens, wives and mothers, that the one simple, wholesome laxative remedy, which acts gently and pleasantly and naturally and which may be taken at any time, when the system needs a laxative, with perfect safety and really beneficial effects, is Syrup of Figs and Elixir of Senna.

It has that true delicacy of flavor, which is so refreshing to the taste, that warming and grateful to the stomach which responds so favorably to its action and the laxative effect which is so beneficial to the system when, occasionally, its gentle cleansing is required.

The genuine, always bearing the name of the California Fig Syrup Co., may be purchased from all leading druggists in original packages of one size only, price fifty cents per bottle.

**Romany Oil**

the great household remedy; no family should be without it. Certain relief for rheumatism, lumbago, sore throat and all inflammatory swellings. 25c and 50c bottles at all druggists.

Coffin, Ruttington Co., Distributors, San Francisco

Good Clothes and no Other Kind

**ABORTION PRACTICE IS SCORED BY JURY.**

San Francisco Prosecutors Are Called Upon to Stop Advertisements.

SAN FRANCISCO, Sept. 28.—Dr. Robert Thompson, alias Grant, was formally charged by the coroner's jury today with the murder of Eva C. Swan, the young stenographer whose mutilated body was found buried beneath the cement flooring of the rooming house last Friday night. The verdict charges that Thompson performed a criminal operation upon the young woman which resulted in her death. In conclusion the jury requested that the state take steps to stop malpractice in such cases as common at present, and prevent the display of signs advertising "this criminal practice of abortion."

## THE FRESNO MORNING REPUBLICAN

Weekly, by mail, \$1.50 a year.

## PRIMARY HARMONY

One of the chief theoretical objections to the direct primary was the fact that the sharp contests before the primary would accentuate factional differences and endanger party success at the general election. Practical experience seems to indicate that this risk is greater with the convention than with the direct primary. Look at the contrast between New York and California. The factional differences in both are the same, but the factional bitternesses are far greater in New York than in California.

In California, the defeated candidates felt that they had had a square deal before the people, and they cheerfully accept the result. The minority, even in the convention, made no effort at obstruction, and the platform, being the declaration of a victory already won and accepted, was uncompromisingly progressive. The candidates for governor on the two tickets are the strongest and most prominent men in the two parties, and there is no suspicion or incrimination that either was nominated by trickery. The pre-primary blows were many blows, delivered in front, and the bruises of them are already healed.

In New York, on the other hand, Colonel Roosevelt accuses the party committee of rejecting him by trickery, while the Old Guard attribute their defeat in the convention to the coercion of Federal patronage. Each side believes the other stabbed it in the back. The faction which knew it was defeated in the convention nevertheless made a stubborn fight, evidently intended to weaken the prospects of party victory in the fall. The platform, on the other hand, is a compromise one, made so as part of the deal for delegates, and does not arouse the enthusiasm of the majority nor receive the acceptance of the minority. The candidate is a mere incident to the fight, selected at the last moment as the beneficiary of a victory he did not win, and his success or failure will be thrust passively on him at the election, as his nomination was at the convention. Altogether, the contest could not be greater, and it is all in favor of California and the direct primary. Fortunately, New York will have the direct primary next time, too.

## WHOSE VICTORY?

The professed Democrats are a hopeless minority of the voters of California. No Democrat can be elected in California except by Republican votes, and this year, with thousands of reform Democrats voting the Republican ticket, because they believe reform can be more effectively accomplished under Johnson, Theodore Bell could not be elected governor except by a huge defection from Republican ranks. There was such a defection, four years ago, to Mr. Bell, but even under the conditions of that year the defection was not great enough to elect him. He can not be elected this year except by an even greater defection this year, and of exactly the contrary sort of Republicans. All the Republicans who voted for Bell last time, as well as all of those who voted for Gillett under protest, are going to vote for Johnson this year. Mr. Bell could not possibly be elected this year except by a stampede of machine Republicans to him far greater than the anti-machine defection last year, and far greater than any machine strength visible in the result of the primaries.

There are no signs of any such defection, on any scale big enough to make it serious. The election of Bell, in fact, is inconceivable. But if it were possible, under these circumstances, who would have won it? Whose victory would it be?

## FORGOT TO MENTION

The writer recently had occasion to speak at two Republican meetings, one at Bakersfield and one at Los Angeles, at which a considerable number of other speakers spoke, representing, between them, about every type of man and almost every shade of opinion in the Republican party, former "regulars" and former "Incumbents" alike. Neither meeting was at all programed, and each speaker said whatever occurred to him, without consultation or advice. By pure accident, it happened that not a single Republican speaker at either of these Republican meetings thought to mention President Taft by name, though Theodore Roosevelt was repeatedly mentioned and vociferously cheered at both meetings. We mention this not as a reproach to President Taft, whom we believe to be entitled to far more credit than he is popularly getting, but simply as a curious illustration of the way the two men have succeeded in impressing the public imagination.

They are insuring everywhere against the special-privileged House of Lords in England; against the Junkers of special privilege in Prussia; against the special privilege of irresponsible autocracy in Russia; against the special privileges of a usurping plutocracy in America—insuring everywhere.

William Johnson will speak in Fresno Friday night. Let everybody turn out, and give him a personal reception worthy of the enthusiastic support we gave him at the primaries and are going to give him at the election.

## PLAYS BOTH WAYS

Even Willie Hearst can learn! With the following quotations from an interview with himself, cabled to all the Hearst papers yesterday:

"The horrifying revelations in California, in New York, in Pennsylvania, in Mississippi, in Pennsylvania and other states disclosed a depth of political depravity which has been suspected perhaps, but never fully realized."

"The application of Mr. Taft's methods constitute a policy of windy destruction. Mr. Taft's policy of quiet and effective performance."

"Hearst! Willie Hearst objects to windy destruction, and prefers quiet and effective performance." Since when did the windiest disturber in the world turn the error of his ways? Or is Willie simply growing old and staid?

"The 'horrifying revelations' in California and elsewhere, and indeed throughout a depth of political depravity, when they disclosed nothing more depraved than the policy of Willie Hearst's California newspapers in obstructing and discrediting the effort to reform the evils disclosed by those revelations."

Mr. Hearst's policies are a reminder of nothing so much as the old story of the stranger invited to take part in a poker game. "Is this game straight?" he inquired. "Judgment protests," "Oh, don't get mad, I play both ways." Willie Hearst plays both ways.

When he is not sure which will pay, in a particular community, he tries out both ways. For instance, his San Francisco paper tried brutally assailing and lying about the San Francisco graft prosecution. For a time it paid. Then, after the shooting of Hickey, it reversed its policy. So the policy was reversed, over night, and a new crew, trained on decent newspapers, moved in the East and shipped out to see if decency would pay in San Francisco.

The Hearst papers have tried good taste topographically and had; sensible editorials and foolish ones; printing much news and little; telling the truth and lying, and whichever policy paid the best in a particular community was continued until there were indications that another policy might pay better.

Mr. Hearst plays the game both ways.

## ONE MAN'S WORK

One of the most important reasons why the next legislature is going to be decent is the unobtrusive and unwarmed service of a quiet newspaper man—Franklin Hinchborn, who kept track of what the legislature did and wrote it down in a book. The book did not pay, and Hinchborn lost more money on it than he could afford to lose—so much, in fact, that we fear, unless some one subsidizes him or some one else, the experiment will not be repeated. The general public did not buy the book. But every newspaper editor and every candidate for the legislature read it. Men with only a vague knowledge of legislative affairs read the clear records of that book, and were inspired with ambition to do the things that are right and worth while in the law-making body of the state. Legislators whose records could not stand the test of publicity had to face those records when they went home. If at any point, the Hinchborn record against any man was biased by the mistake or personal prejudice of the author, the legislator concerned had no difficulty meeting and explaining the record; so any errors of infallible human judgment which the book may have obtained did no harm. But the stern facts, marshaled in their relations, did fatal harm to those condemned by them. The whole defeated Los Angeles gang attributed their defeat to Hinchborn. The defeat of unfit men elsewhere, and the making clearly right of muddled men as well as the renomination and assured election of positively right men, are all in large part due to the labor of this one writer, who simply took pains to collect the facts and present them in order. It was a public service of immeasurable value. We wish it might also have been a private venture of encouraging profit.

## BRIEF EDITORIAL

## FANCIES SELECTED

Hoke Smith Harmon.

Mr. Bryan has been saying some very nice things about Congressman Hoke Smith of Georgia. Recently the Georgia Democrats associated Hoke Smith's name with the presidency purely as a compliment to their congressman.

Now Mr. Bryan is to the fore with many flattering remarks about his old friend.

The peerless leader easily can do this. In the first place, he knows that Hoke Smith has a little chance for the presidency as has a Hottentot.

Secondly, it gives him great pleasure to praise Smith because, by doing so, he raps Governor Harmon of Ohio and other good Democrats.

Both Harmon and Smith were originally good Democrats. But Smith went with the party when Bryan raised the silver standard, while Harmon bolted. As the Washington Star says:

Whether he supported McKinley and Hobart, or Palmer and Buckner, or took to the woods, does not so much matter. He did not support Mr. Bryan and all that he called for political in Ohio, was the same against the Democratic ticket. Like all politicians, Mr. Bryan keeps books, and has a professional accountant's skill in turning back to old ledgers.

Which goes to show that there are wheels within wheels in the political machine, and it is a man who knows where he is at—Oakland Enquirer.

## LOSS OF RESPECT FOR LAW AND LACK OF SENSE OF RESPONSIBILITY ARE 'MONG DIVORCE CAUSES

The Rt. Rev. John Wordsworth, head of the Episcopal Church in the United States, has just issued a statement in which he says that the loss of respect for law and lack of sense of responsibility are among the causes of divorce.

He says that the loss of respect for law and lack of sense of responsibility are among the causes of divorce. He says that the loss of respect for law and lack of sense of responsibility are among the causes of divorce.

## BLUNDER MADE IN PRINTING TAX AMENDMENT WHICH CALLS FOR EXTRA SESSION OF LEGISLATURE

It was a sorry piece of bungling that has resulted in the need of an extra session of the legislature to correct the blunder of a proposed constitutional amendment to be submitted to the voters of the state for approval at the November election.

This amendment, No. 1, makes a radical change in the system of state taxation, and is one of the most important ever framed. In its original form, it was defeated two years ago, but was modified by the legislature at its last session, or re-submission.

As it finally passed, and as it now stands officially, the amendment omits the three words capitalized in the following sentence:

The gross receipts and gross premiums herein mentioned shall be computed for THE YEAR ENDING the 31st day of December, prior to the levy of such taxes.

The omission would appear to be dangerous, if not absolutely fatal, to the effect of substituting a single day for a year.

## RAILWAYS LOSE THEIR FONDNESS FOR STATE REGULATION OF TRAFFIC RATES

The extent to which the stock market is governed by the outlook for an increase in freight rates had a forcible illustration in Wall street on Wednesday when the Minnesota railway decision was announced. The railway decision was announced by the Interstate Commerce Commission, which had been holding up the decision for a long time. The decision was a surprise to many, as it was expected that the railways would win the case.

The decision incidentally is a slap at Senator Cummins' proposition that railroads should be so regulated as to permit of net earnings not to exceed 5 percent on the capital. This appears to have been the basis for the action of the Minnesota authorities in fixing the rates complained of by the railways.

The decision incidentally is a slap at Senator Cummins' proposition that railroads should be so regulated as to permit of net earnings not to exceed 5 percent on the capital.

I am pleased to recommend Chamberlain's Cough Remedy as the best thing I know of and safest remedy for coughs, colds and bronchial trouble," writes Mrs. L. R. Arnold of Denver, Colo. "We have used it repeatedly and it has never failed to give relief." For sale by all dealers.

## Eat What You Want Without Stomach Misery

MI-O-NA Will at Once Stop All Distress Caused by Undigested Food.

Stomach troubles will disappear, your appetite will return, and you can eat what nature calls for without fear of after suffering, if you will put your faith in MI-O-NA stomach tablets.

Perhaps you have had indigestion a long time, have had sour stomach, flatulency, after eating, rising of food, heartburn and biliousness.

It may be that you have tried the ordinary cures sold at most drug stores, and tried to digest and other methods to put strength into your weak stomach.

No matter how long you have suffered, no matter how many remedies you have tried—the San Joaquin Drug

MI-O-NA stomach tablets will surely cure indigestion; they relieve all distress in five minutes; their tonic action turns weak stomachs into strong ones and puts energy into the entire body. The San Joaquin Drug Co. and druggists everywhere sell MI-O-NA for 50 cents a large box. Mail orders filled, charges prepaid, by Hootch's MI-O-NA, Buffalo, N. Y., who will be glad to send a free trial treatment upon request.

# News of Oil Fields

## TO FINISH OIL WELL WITH ELECTRIC MOTOR

Will Demonstrate on K. T. and O. Property; Azores Cement Job Failure.

COALINGA, Sept. 28.—The Westinghouse electric people are in Coalinga again and are making arrangements to give another and more thorough demonstration of their electric drilling motor. They have installed the motor on well 33 of the K. T. & O., on 25-20-14, which is now down 1400 feet and in which it is expected the sand will be reached at 1500 feet. The electric people intend to complete the well with the motor, and in this way give it a thorough test.

The Azores, in the south field, which was completed off a month ago and allowed to set, was bailed out yesterday and it was found that the water had broken in. It will be recompleted as soon as the casing can be loosened.

## OIL STOCKS SLUMBER ALONG WITH TRADERS

Maricopa National, However, Feels Bear Move After Good Rally.

Trading in oil stocks on the San Francisco and Los Angeles exchanges is somewhat indifferent as to volume. Prices are firm, however, and professional traders are holding in readiness to take advantage of the first change in the general oil situation.

It is pretty well conceded that prices have been hammered down on the active traders to the low limit and any activity in the buying is felt quickly by an advance.

Two local stocks, Coalinga National and Maricopa National, were recently listed informally on the San Francisco exchange and have been very active traders both on the exchange and private sale. The recent investigation by the stockholders of the Maricopa National have brought out two factions, one of which is composed of several hundred small stockholders, and the other faction is apparently under control of the insiders, composed of a few men who hold large blocks of this stock. Now certain parties are believed to be bearing the market as it is thought they want to buy up more of this stock at a low price. The price jumped last week from 23 cents on Monday to a closing price on Saturday of 33 bid and 34 asked, with sales at 34.

## THINK ASSOCIATED MUST PAY 35 CENTS

Some oil men are now having pending negotiations between the Associated and the oil men, Agency, and the minimum guarantee of 35 cents which is contained in the storage certificates being gotten out of the Agency as marking the successful passing of a climax in the oil industry of this state. The 35 cent guarantee of the Agency, certificates taken as proof that any contract made with the Associated will not be lower.

## CONSUMERS TO BUY UP OIL AS A UNIT BODY

Association in Los Angeles Working on Direct-to-the-User Plan.

LOS ANGELES, Sept. 28.—Some time ago there was a meeting in this city of oil consumers who had big plans for the purchase of oil direct from the producer. Included in the membership of the organization were many of the largest consumers of crude oil in Los Angeles and vicinity. There was talk about building storage and eventually pipe lines from the San Joaquin fields to this city.

It now seems to be the object of this organization to buy oil as a unit. By so doing they expect to bring about profitable results, not so much in forcing down prices to the producer as in making material savings. In fact, according to W. L. Brant, president of the Oil Consumers' Association, the buyers do not want to see oil cheap, realizing that such a condition would tend to stop development.

It is stated that the members of the Oil Consumers' Association use about 8,000,000 barrels of oil a year. That amount of business is well worth the while of any marketer, and it is considered that the patronage of the association will be desirable under any circumstances.

The Oil Consumers' Association, it is said, will charge its members a material advance over the cost price of oil, retaining the cash surplus in order to insure against any possible treachery on the part of its members. This fund will be distributed later as dividends to those distributed later as dividends to those remaining steadfast to the purposes and agreements of the association.

## FIFTY CARS MALAGA GRAPES YET TO SHIP

Emperor Season Opens Middle of October; Tokays Not Doing Much.

Shippers state that probably fifty cars of Malaga grapes have yet to go out of this section before the coming in of the emperor season. The emperors will begin to move about the middle of next month. Tokays are at present taking up the market, but are not doing very well for some reason.

Prices at the coast of the Malaga season have slumped off somewhat, as is usually the case when the goods begin to be rather ripe.

No definite predictions are yet made for the emperor season, which closes the table grape shipping in this locality. It is stated, however, that the grapes may begin to move a little earlier, owing to the maturity of the crop.

## COALINGA CLASSES REPORTED CROWDED

High School Building Will Be One of the Best Arranged in the County.

Superintendent Lindsay reports that the schools at Coalinga are uncomfortably crowded. He spent Monday and Tuesday over there and found a grammar school with eight grades, eleven teachers and 425 pupils. They have three new teachers this term and will need another before the school year is ended if the school finances will warrant it.

In the first grade there are eighty pupils and more pupils are coming in daily. The pupils are waiting to be housed in the new school building, and as showing the progress made in school matters in Coalinga Mr. Lindsay says that when he took office Coalinga's high school has three teachers.

Oil King district school also was visited. It is a school with one teacher and with fifty to sixty pupils. Coalinga's high school has three teachers and thirty-five to forty pupils. It expects to be housed in its school building when it is completed in November. This building, Mr. Lindsay says, he considers the best arranged and equipped in the county outside of Fresno city. The equipment for heating and cooling is especially noteworthy. With the windows closed and fresh air pumped into the classrooms the temperature on the hottest day can be reduced to 60 and 70 degrees.

Yesterday Mr. Lindsay visited Scandinavian school, a progressive district school with two teachers and an enrollment of eighty pupils. Mr. Caya, who taught last year at Tol house, is the principal, with Miss Haney as the assistant.

## REALTY COMMITTEE AFTER BOOKLETS

The committee of the realty board which has charge of the arrangements for distribution of literature on the county at the Fresno Fair, which begins here next Monday, yesterday announced that available literature should be put in the hands of the committee. The book for the purpose has been completed and decorated. The committee in charge is composed of W. L. Chappell, Al Braverman and A. J. Sowles.

**INSANITY PREVENTABLE.**  
"By a simple arithmetical calculation can be shown the exact year when there will be more insane persons in the world than sane." "At least 50 per cent of the cases of insanity now in the hospitals of this country are preventable." These two statements, presenting in the usual degree that conventional agreement which prevails among experts, enable us to face the future with equanimity. Dr. Forbes Winslow, of London, who looks forward to an insane world with certainty in the not far distant future, estimates his fears upon the statistical fact that in the forty years from 1850 to 1900 the number of lunatics increased from one in 418 of the total population to one in 278. That the methods of gathering statistics have been greatly improved in the same period is a factor which is misleading from many a series of inferences.

## BETTER 'PHONE SERVICE PROMISED BY LOCAL OFFICIALS

Admission Made to Chamber It Has Not Been Up to the Standard.

Business Holiday for Next Wednesday; Wholesalers Coming From City.

Officials of the Telephone Company had conference with the executive committee of the Chamber of Commerce last evening in secret session at their request. As a result it was given out that the officials gave assurance of an improved local telephone service and that the improvement has already been made manifest. The attending officials were J. T. Cross, district general superintendent; H. E. Patterson, local commercial manager, and W. S. Moore, district traffic chief. It had been expected that complaints against the service would be in attendance last evening to urge their grievances either in person or in writing, but no complaint was registered and the conference therefore covered generally the subject matter of the service.

Upon adjournment of the executive session, President Hobbs stated that the conference was mutually satisfactory and official assurances were given for complaint as soon as changes and improvements under way are completed. According to Mr. Hobbs it was frankly admitted that the telephone service has not been the best lately, but that this was owing to a combination of circumstances which is fast being overcome and remedied, if not already so.

Since last month 100 new telephones have been installed, it was stated, and as a result certain employees have been overworked. As a consequence also some of the boards have been overloaded, and this is being remedied by an equalization of the work to relieve the overworked girls serving at these overloaded boards.

Changes are also being made in the system, and new lines are being put in in the enlargement of the general system and this has added to the temporary confusion. Another trouble that was admitted had affected the service was the change of operators and the inability to secure experienced girls in their stead. It was stated that the service was in part crippled with the reopening of the schools, when some of the more experienced operators ceased employment to return to school, several of the telephone officials emphasized the fact that the improved service was only temporary for the reasons stated and with the changes and equalized distribution of the work it was promised there would be no further reason for complaint by the public.

## TO FAVOR COALINGA.

The executive committee unanimously passed the following resolution: "Resolved, that in view of the importance of the Fresno County Fair and the general interest taken in it by the community, and the fact that the county is closing on certain days, this Chamber of Commerce strongly urges the merchants of Fresno to close on Wednesday afternoon, that being also the date on which Coalinga holds holiday to attend the fair here."

It was announced that the banks would be closed on that day and the merchants have signed up to likewise between the hours of noon and 6 o'clock. Next Wednesday is Coalinga day at the fair and that town will suspend all business for a holiday to come to the fair. It was thought only proper and showing due appreciation of the merchants' request that the Chamber of Commerce should likewise return the compliment.

## TO RECEIVE MERCHANTS.

An excursion of merchants will come from San Francisco on the 17th of October and as a reception committee to meet them and help them out in a prearranged program, Chairman Hobbs appointed the following named as a committee on reception: C. W. Barrett, D. L. Newman, H. Groff, A. Kamp, W. B. Holland and G. Gotschall. The visiting merchants are San Francisco wholesalers who have business relations with local houses and they come to meet their clients "to talk shop," as was stated. The visitors will be the heads of commercial houses. They will arrive on the 17th of October, leaving at noon, returning on Saturday the day following and remaining from 3 o'clock until midnight. The merchants will provide their own entertainment.

## TO GO TO BRAZIL.

Secretary Robertson was instructed to write to Dr. Danhe, now at Los Angeles, informing him that it is compatible with the arrangements, the chamber would recommend R. Friselle of Kearney Park to accept the invitation of the Brazilian government as representing this part of the state to visit the southern republic in the interest of enlarged trade relations with this country. Dr. Danhe has been sent as an ambassador by the government to invite guests to investigate the conditions offered in the enlargement of trade and commercial relations with this country.

## ANOTHER LEAFLET.

For distribution at the Presbyterian Sunday meeting here during the middle of October, the chamber resolved upon the issue of a leaflet similar to the one gotten out for the Methodist Episcopal conference to advertise the reopening of the county.

## COLLECTION TOUR.

The committee on systematized collection tour to be undertaken today to gather \$500 which the chamber pledged to the entertainment fund for the Danish Brotherhood national convention next week.

slides this. This improvement, indeed, actually makes conclusions based upon short periods often more reliable than those based upon long ones, although such conclusions are unfortunately apt to be much less startling than we have grown to expect from rows of figures. The more agreeable assertion of Dr. Joseph Collins, based upon what is now being done to restore mental incompetents to health, that, when once the possibilities of such restoration are more generally understood, the number of insane will dwindle until historians will write of its prevalence and primitive treatment today with the same horrified pity that we feel when we look at Hogarth's fearful cartoon of the unhappy inmates of Bedlam, is handsomely enforced by Dr. Winslow himself in the words: "I have breathed the atmosphere of lunacy for over sixty years."—New York Post.

All pure linen table cloths, 2 yards by 2 1/2 yards—A real pretty double satin damask with a beautiful border all the way around.

We carry napkins to match all our table cloths and linens.

## SEEKING ASYLUM.

A city gentleman was recently invited down to the country for "a day with the birds."

Whatever his powers in matters of finance, his shooting was not remarkable for the accuracy, to the great distrust of the man in attendance, whose tip was generally regulated by the size of the bag.

"Dear me," at last exclaimed the sportsman, "but the birds seem exceptionally strong on the wing this year."

"Not all of 'em, sir," came the remark, "you've shot at the same bird this last dozen times. 'Es fellerin' you about, sir?"

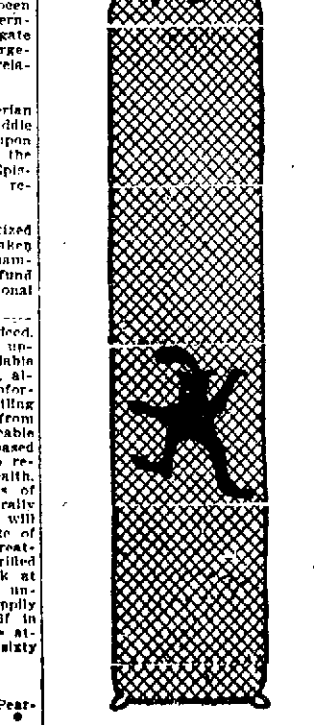

"Following me about? Nonsense! Why should a bird do that?"

"I dunno, sir, I'm sure," replied the man, "unless he's 'agin' round for safety!"—From Ideas.

## S. B. LUNG TONIC

Cures coughs, colic and hoarseness when other preparations fail. It is pleasant to take and good for old and young. Genuine only at Smith Bros' Drug Store.

## Talks On Osteopathy

BY A. L. HUNT D. O.

OSTEOPATHIC PHYSICIAN

If the family doctor has failed on your case, why do you not try something else? Perhaps he did not fully understand your condition, then why not consult someone who does. It will cost you nothing to investigate, and you will be under no obligations to take treatment. I never charge for consultation or examination, neither do I ever insist upon anyone taking treatment. Ask your friends whom I have treated, they will assure you of courteous attention, and gratifying results if you place your case in my care. Do not delay another minute. Come and let's talk it over; if you decide adversely there'll be no ill feeling on my part, I assure you, neither will there be any obligation on your part, either financial or otherwise. Come today.

## JUDGE THOS. J. LENNON ON VISIT TO FRESNO

Is Candidate for Presiding  
Judge of the Court of  
Appeal.

Judge Thomas J. Lennon of the Superior Court of Marin County, who spent a couple of days in Fresno in the interest of his candidacy on the Republican ticket for presiding justice of the District Court of Appeals of this district, expressed himself last night as greatly pleased with his reception. Judge Lennon is well known personally and by reputation among the lawyers, and is personally a very good man, who makes friends readily. Judge Lennon has had a practical, varied and extensive experience as a lawyer, having been engaged in general and successful practice for fourteen years prior to his elevation to the bench. Since 1907 he has been superior judge of Marin County, succeeding Justice Angellotti. In his home county he is held in high regard by Republicans and Democrats alike. His nomination for the office of judge by the Republican party in 1907 was unopposed. In 1908, he not only received the Republican nomination without opposition, but the endorsement of the

Democrats and Union Labor parties. Judge Lennon was born in Marysville, Yuba County, in 1865. He was educated in the public schools of that city, and also at St. Mary's College in San Francisco. He was graduated from the latter institution in 1888. Later he studied law in San Francisco, and was admitted to practice in 1893. After his marriage in Marin County some fifteen years ago, he made his home in San Francisco. Induced by the Lincoln-Roosevelt League, Judge Lennon at the primary election received the unanimous Republican nomination for presiding justice of the District Court of Appeal. As a trial judge he is a pronounced success, and has given unqualified satisfaction. His time and attention of cases have been expeditious, and his decisions have been uniformly upheld by the higher courts.

### DRILLS AND MARCHES.

Drills and marches will be the most interesting feature in the Buffalo Bill's Wild West and Vaudeville Show at the recently opened S & C Vaudeville Theater. The show will be seen in the afternoon and evening. The Buffalo Bill's Wild West and Vaudeville Show is a combination of the best of the old style engines, it has always won the first prize.

## SOLD-OUT SIGN IS UP AT EVERY PERFORMANCE AT RECENTLY OPENED S & C VAUDEVILLE THEATER

Dorsch and Russell.

From the easy and clever manner in which Sailing Brothers handle the S & C Vaudeville theater, the sold out sign is not at all unusual to them. With three days of the greatest success a play house ever experienced, the audience has been sold out every day and every ticket has been sold for the remainder of the week. From the overture to the feature act every number is pleasing and interesting. Manager Sailing reports the special week-day matinee for beyond expectation, with the price of 10 cents for all seats, ladies and children and this an excellent place to spend an afternoon. The great Zamboni, presenting the "Mysterious Mystification," continues to mystify everybody. How and why a table, arm and hat will talk is left for you to find out. Miss Frances White has proved so popular with the audience that the management has arranged to keep the "Splash Me" girl indefinitely. Next week Miss White will be seen in her clever baby electric swing song. The "Dog Catcher" is still catching bugs to the amusement of all, while Miss Doris Deidley, "Australia's Dainty Songstress," plays ten minutes to applause. Dorsch and Russell, "The Musical Bandits," certainly deserve their reputation for filling theaters with lovers of sweet music and beautiful scenery. The S & C orchestra, under the direction of Prof. Gustav Schultze, renders the best music heard here for many years.

## CARRIES PASSENGER HIGH OVER CHICAGO

Brookins Prepares for His  
Flight From Metropolis  
to Springfield.

CHICAGO, Sept. 28.—Carrying a newspaperman, the first airplane passenger ever carried in Chicago, Aviator Walter Brookins soared above the city's lake front late today and sailed away over the lake, swinging about over the edge of the half-building district and early brookins, his Wright biplane to earth again. Brookins' flight was preliminary to his attempt tomorrow morning to break the American sustained flight record and thereby capture the Chicago Daily Herald's prize of \$10,000 for a flight from Chicago to Springfield, a distance of 187 miles. His sailing today was closely watched by his tutor, Wilbur Wright. A special train over the Illinois Central road, will endeavor to beat Brookins to Springfield tomorrow.

Darby's Livery Stable, Main 325.

## REGISTERED VOTE IS ESTIMATED AT 18,000 FOR COMING ELECTION

About 3000 Have Qualified  
Since Primary; Total of  
15,165 Electors.

Registration for the November general election closed last night. The county clerk's office was kept open to accommodate the tardy, unregistered voters, but few, less than a dozen, appeared during the night to go on the register.

The rush of registrations during the closing days was confined to Monday when there were 100 or more applicants, the number on Tuesday falling to the normal of about 25, with a rush again of about 20 at night and a comparatively small number yesterday.

The two central committees claim to have registered about 900 voters during the closing days, and the county clerk's office estimates that there will be at least 2000 registered voters since the primary election. The registered vote for that election was 15,165, and if the estimate of 2000 additional is correct, the total is estimated that there will have been a 17,165 general registration of the voters of the county in the total of over 18,000.

There are not yet 47 registration affidavit books in the city and 112 in the county. Each of these contains 25 affidavits and the books would represent nearly 4000 affidavits. It is considered not an unreasonable estimate that one-quarter of these will be returned unneeded. The 2000 registered voters would include those reported at the two political headquarters.

While registrations are finally closed, a few changing names are being reported. The names of those transferred on the register up to the 14th day. The new apply, however, only to the voters actually moved during the 14th day, so as to change the date of residence in the new precinct before election day and vote in the changed place. This allows the voter to change his residence between the 14th and 15th to make the necessary transfer.

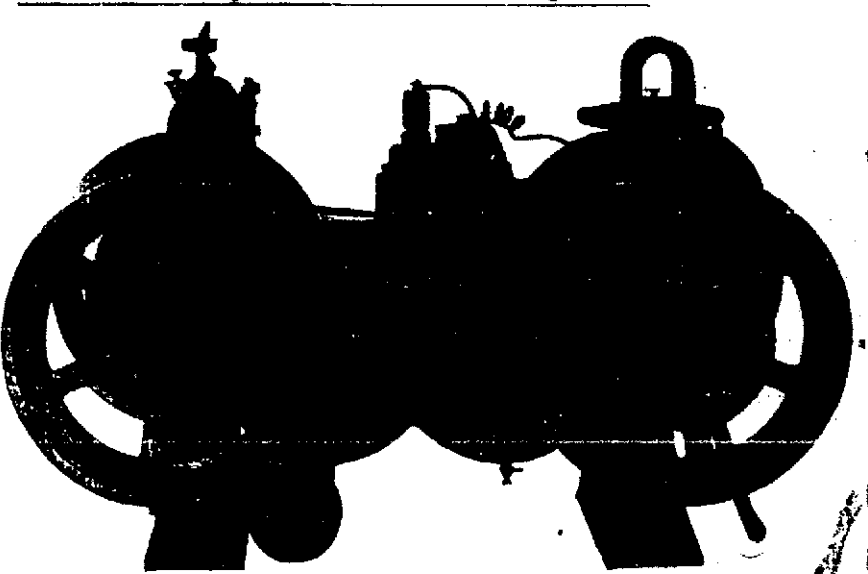

The 14th day books that are out are expected to be closed today by mail, except a few personal delivery and the next day will be to register. The 14th day books are being turned in to the clerk's office in the preparation of the register. This work will be finished on the 14th day. The 14th day books are being turned in to the clerk's office in the preparation of the register. This work will be finished on the 14th day.

The clerk's office is the county register's office for non to vote at the general election. He is John H. Pennington, a native of Tennessee, aged 38 years, a resident of Arlington, a printer and a member by occupation. Mr. Pennington is single, and has a wife and two children, one a girl and one a boy. He is a native of Tennessee, and has lived in Fresno for the past five years. He is a member of the local lodge of the Elks, and has been a member of the Elks for the past five years. He is a member of the local lodge of the Elks, and has been a member of the Elks for the past five years. He is a member of the local lodge of the Elks, and has been a member of the Elks for the past five years.

Edw. H. Black—Call Parson's Exchange.

Here's the Gas Engine to have, one that has never been beaten. At three fairs in competition with the best of the old style engines, it has always won the first prize.

## This Is a Record to be Proud of

... AND ...

## Speaks for Itself

The famous Bosch magneto, Schebler carburetor and multiple sight feed oiler, with bar lever, are part of the regular equipment of Fresno's Non-Vibrating Gas Engine.

The Bosch magneto is well known everywhere as the best.

No carburetor made will give better results than the Schebler.

Our sight feed oiler with bar lever takes care of the entire engine at once.

With gas engines as with everything else, the best is the cheapest. No better engine is built than this one. It is non-vibrating, consequently can be built much lighter than others, and runs without being bolted down to a concrete or other foundation.

As a result, is the finest portable engine imaginable.

## Our Specialty is the complete installation of Pumping Plants

# MARGARET ILLINGTON IN "UNTIL ETERNITY"

## TONIGHT GIVES STRONG PORTRAYAL OF MOTHER LOVE

Margaret Illington, who appears at the Barton tonight in a new play from the French, "Until Eternity."

An event of great dramatic importance will take place at the Barton tonight, when Margaret Illington will be seen in her new play, "Until Eternity," which comes from the French. In its original it was acclaimed by Paris on the occasion of its premiere as a work of wonderful power and the purposes of its argument and experience in life involving possible conditions. In the adaptation used by the Barton, which is the work of Edward Elmer, all the powerful situations of the original have been retained. The play tells the story of heart-breaking mother love of a young wife driven to desperation through the neglect of her husband. In an impulsive moment she leaves her home and her

child. The train in which she makes her flight is wrecked, and severely injured she is brought to a London hospital, where, in the great confusion, her identity is lost.

Regaining her health and learning that her husband, believing her dead, had remarried, she is further convinced that he never cared for her, and she decides to continue under an assumed name. Mother love and the longing for her boy soon dominates, however, and the knowledge that her child is being neglected determines her to go to him at any cost.

She enlists the aid of friends to secure her the position of governess in her former home, believing that her disguise will safeguard her. As soon as she arrives there, her husband's brother penetrates it and for the time being her plan seems lost.

A scene between them ensues, during which the present wife enters, followed by her husband, who also recognizes her. This revelation staggers him, but he decides to allow her to remain, hoping to avoid uncomfortable disclosures.

The child, ignorant of his mother's identity, pours out to her all the pent-up love of his tender nature, unwittingly cutting her to the quick, as she cannot reveal her true position, which with every moment grows harder as she sees the tenderness and love which is bestowed upon the woman who has supplanted her in her husband's affection. The following act brings the great love which the governess is lavishing upon the child, and because of the changed attitude of her husband, suspects that there is some secret between them. She determines to find out, and in a wordy battle, wins from the broken-hearted woman her real identity. During this confession, the husband enters, and for the first time he hears the story of her flight and the causes that led to it, all of which he refuses to believe. After which she is sent away. The following act brings about a happy ending in the reconciliation of their shattered loves and the birth of a new happiness and confidence between them.

In support of Mrs. Illington are many well known players. The principal roles have been allotted to Nina Morris, Lilla Vane, Gladys Webster, Antoinette Crawford, Ruth Ormsby, Walter Edwards, Edward Elmer, Melville Rosenberg and Stanley H. Wolfe.

"THE CHORUS LADY." A unique feature in connection with the appearance of Mrs. Rose Stahl in "The Chorus Lady" at the Barton opera house next Saturday and Sunday nights, is that, although this comedy by James Forbes has been running successfully in London engagement, only one or two changes have been made in the remarkable cast since the date of the original production. This is so unusual as to be almost epoch-making in theatrical history, and it means that when Mrs. Stahl comes to this city Saturday at the Barton she will have the support of nearly all of the original "Chorus Lady" company in its entirety. Mrs. Stahl appears in the Forbes comedy as Patricia O'Brien, a chorus girl, and she is credited with one of the greatest and most striking characterizations the American stage has known.

Contrary to the meaning conveyed by its title, "The Chorus Lady" is a finely built dramatic offering which possesses the popular appealing qualities of finely portrayed sentiment and good wholesome laughter.

### MARRIAGE LICENSES

Licenses to marry were issued yesterday to Munzio V. La Forti, native of Italy, aged 38, and Jennie Soranna, native of California, aged 19, residents of Fresno city.

Thomas G. Elder, native of Nebraska, aged 25, and Mary E. Gobin, native of California, aged 20, residents of Reedley.

Notice is hereby given that the following have been elected to hold a lecture in Old Fellows hall Saturday, October 2nd, 1916. Everybody invited. Entrance free. No dance on account of the death of one of our members.

### THE COMMITTEE.

Breaks display is the latest novelty. See it on display in our windows. C. H. Staples, 1906 Mariposa St.

## DR. MARTIN PLEADS AT LAST; TRIAL TO BE SET TODAY

### Authority Asked to Lease Vineyard of Murdered Garabedian.

### Dismissal of Charge Against Young Lyons; Civil Case Set for Trial.

On his ninth appearance in court yesterday, Dr. Jackson L. Martin pleaded not guilty to the information charging him with neglect to provide his wife with proper medical treatment in her last illness. The attorney and the district attorney will come together today and agree in court upon a definite day for the trial. This, according to the representations made in court yesterday, will be a date not further off than two weeks, as the court calendar and Attorney Everts' engagements show free days at that time.

The plea given yesterday followed details by Judge Ebert after long arguments of two motions to dismiss the last filed information and the overruling of a demurrer involving the same technical points as urged on the two motions. The first of these motions was for a dismissal because the information last filed on the 19th was not presented within thirty days after the preliminary examination and holding of the defendant to answer on the 24th of last June.

The second motion was based on a series of technical objections that the defendant was not held on a good complaint charging any offense known under the statute, that he was not committed for the offense attempted to be charged but for another than the one so charged and under a complaint charging no known offense, that the offense attempted to be charged is a misdemeanor under the law and that while the original complaint attempted to charge a felony yet he was committed for a misdemeanor and lastly that the order of the superior court of the 13th resubmitting the case for a new information did not authorize the committing magistrate under the original complaint to commit him for the offense charged.

The afternoon was spent in the arguments on the demurrer converting these pleas by Attorney Everts for the defendant and McCormick for the prosecution.

### LEAVE THE LEASE.

A Garabedian, the administrator of the estate of Murgedich Garabedian, who was mysteriously assassinated, put in a petition yesterday for leave to lease lots 279 and 280 of Washington Irrigated Colony.

At the time of Garabedian's sudden taking off, the property was mortgaged for \$4000, which claim has been presented against the estate. Other debts amount to \$1007.10. Costs and administration expenses will amount to \$1000. Money on hand amounts to \$1450 and there will be due about the 15th of November \$1200 for the crop of raisins sold under the order of court. Other personal property is valued at \$700.

The administrator urges a lease because more money will be received as rental than if the premises were cultivated by him, while from the first installment of cash rent almost sufficient to pay all debts and expenses, save the mortgage, the balance and distribute as he sees fit. The widow, Imastuhl, and a minor son and under the circumstances it is claimed the vineyard cannot be cultivated with all work done by hire and leave a profit and pay interest on the mortgage.

The proposed lease is for \$1800 for one year, \$200 each on November 15, 1916, and \$500 on November 15, 1917, and in case of sale before May 15, 1917, all rental paid to be returned for work done on premises and a bonus of \$500, and in case of picking time between May and October, returned for a bonus for all labor done and \$400 bonus.

### WAS OF CONSENTING AGE.

The information charging Herschel Lyons with felony was dismissed yesterday on motion of Attorney Van Meter concurred in by the district attorney. The charge was that Lyons, aged 16, had taken advantage of May Deenan in April, 1909, when she was 15 years of age and under the legal age of consent. Mrs. Deenan, who is guardian, says Lyons through Mrs. Clara L. Lyons, his mother and guardian, for \$10,000 damages for seduction under promise of marriage is set for trial for the 18th.

### CURT NOTES.

Nettie Hutchinson asks for letters in the estate of Nellie V. Shepper, valued at \$575, consisting of five acres of unimproved land. Heirs are William A. Shepper, husband of St. Paul, Minn., also a brother of St. Paul and the petitioner, a sister resident here. Mrs. Shepper died at St. Paul on May 10.

Information has been filed accusing George G. Gifford, a former fireman of the 5th of last August, when he broke open a locker to steal cigars and cigarettes after a fire and while there as a call fireman.

### KITTENS BORN ON ICE CAKES.

A Maltese cat and three young kittens were found in an ice car that arrived in Montclair, N. J., yesterday. They were lying on a large cake of ice and seemed little the worse for their cold lodgings.

The cat came from Pennsylvania, and was thirty-six hours on the road. It is believed that the cat sought shelter in the car before the doors were locked and during the trip became a mother.

The warmth of the cat and kittens had melted a hole several inches deep in a cake of ice, showing that when the kittens got under water in a cake of the ice the mother removed them to another. — From the New York World.

There is little danger from a cold on an attack of the grip except when followed by pneumonia, and this never happens when Chamberlain's Cough Remedy is used. This remedy has won its great reputation and extensive sale by its remarkable cures and its safe and reliable action. It is upon with implicit confidence. For sale by all dealers.

## MAKES FINANCIAL REPORT TO STATE

### Auditor Furnishes Controller Statement of How Money Comes and Goes in County.

County Auditor Barnum sent to State Controller Nye yesterday for the year 1909-10 the first report called for by the act passed at the last legislative session showing receipts and expenditures and bonded indebtedness of the county. For county purposes the receipts are:

Property tax	\$603,326.66
Road and poll	15,715.50
License	16,114.45
Office fees	36,941.00
Interest	3,841.02
Miscellaneous	11,037.97
Railroad and other state taxes	269,032.09
Total	\$1,025,310.49
Other than for county purposes	\$234,951.45
Schools	216,668.50
Bond sales	\$97,935.56

Total	\$1,568,865.51
Balance at beginning of fiscal year	\$22,748.49
Receipts for year	1,758,349.79
Unapportioned personal property tax collected by assessor \$25,728.79 outside; \$12,442.58 inside of cities, and \$10,552.82 as special school taxes.	
Expenditures for county purposes:	
Schools	\$626,749.21
Roads	245,341.59
Bridges	9,171.10
Hospital	48,530.48
Orphans and indigents	23,634.81
Jails	29,827.40
Courts	17,565.52
Administration	163,345.52
School bonds	61,772.31
Total	\$1,299,953.70
Other than for county purposes:	
State taxes	\$248,195.46
Districts and special	2,240.12
Miscellaneous	9,927.25
Total	\$258,362.77
Expenditures of year	\$1,558,316.47
Balance end of year	432,821.81
School district bonds	\$28,321.00
High school bonds	25,000.00

### THE WITCH DOCTORS OF CENTRAL AFRICA.

The most important period of the young African's life is that between youth and manhood for womanhood. It is then that the witch doctor is extremely busy with his various mysterious rites. It is an important part of his calling to be hideous, as in most cases he undoubtedly is. A ridiculous mask covers his head, and wild and other skins are hung around his loins. Pigment of various colors is plentifully daubed over his body, and in this hideous state it is not to be wondered at that he strikes terror into the maidens' hearts as he dances wildly in the dim twilight, glaring at them with fiendish eyes. The third young creatures are the bare which trembles as the hovering bird of prey flutters over its head. Self will is crushed, and the erstwhile playful, wilful child is transformed in most cases into a frightened creature with, for the time being, no will of her own. It is a curious thing that nothing connected with what one may call the spiritual side of the blacks' life is ever beautiful. Their carved figures are always, to say the least, grotesque, and calculated to frighten rather than comfort the beholder.—October Wine World Magazine.

### GRIM VISAGED WAR.

Realistic Battle Scenes Will be Seen With Buffalo Bill's Wild West and Pawnee Bill's Far East.

"The Battle Summit Springs" will be the chief scenic feature with Buffalo Bill's Wild West and Pawnee Bill's Far East when it exhibits in this city. It was in this conflict that Col. Wm. B. Cody (Buffalo Bill), killed Galt Bull and thus turned the tide of victory for the government forces. This battle was the culminating result of a long campaign of trailing and scouting by a force of U. S. cavalry, under command of Gen. E. A. Carr, with Buffalo Bill as chief of scouts. Under Galt Bull a large band of renegade Indians—Arapahoes, Sioux and Cheyennes—had been committing depredations throughout Western Nebraska and Eastern Colorado for several years. It was on July 11, 1869, that Buffalo Bill discovered the "Dog Soldiers," as the Indians were called, in camp at Summit Springs. He guided the government forces to the scene and engineered a surprise attack which resulted in the utter rout of the redskins and the practical extermination of Galt Bull's followers. In reproducing the Battle of Summit Springs, with the Wild West and Far East historic facts will be followed with careful detail. The death of Galt Bull will be reenacted, with Buffalo Bill playing his original role. Gen. E. A. Carr will be impersonated and the other prominent officials of the U. S. cavalry detachment will also be shown by representation. Other scenic features of the big exhibition will be reproductions of the incidents which marked the conquest of the Western wilds. They will be given with historic accuracy and will show the dangers and hardships incident to the discovery and settlement of the fertile Western fields. There is a number of other historic facts of interest to the exhibition, and an entertainment of exhilarating interest is assured. Col. Cody's coming visit will be his last personal appearance in the saddle in our city.

"It is all very well to be modest and retiring especially when Pa. her Pa. is as beating too busy a retired," said Wilton Jackson. "Now, there was the bashful young fellow who was devoted to the daughter of a friend of mine. He was making a call on the girl one evening not so very long ago, when her father came into the parlor with his watch in his hand. It was about 9:30 o'clock. The young man was standing on a chair, straightening a picture over the piano. The girl had asked him to fix it. As he turned the old gentleman, a gruff, stout fellow, said: 'Young man, do you know what time it is?'"

"The bashful youth got off the chair nervously."

"Yes, sir," he replied. "I was just going."

"He went into the hall without any delay and took his hat and coat. The girl's father followed him. As the father reached for the doorknob, the mother called him if he knew what time it was."

"Yes, sir," was the youth's reply. "Good night." And he left without waiting to put his coat on."

"After the door had closed the old gentleman turned to the girl. 'What's the matter with that fellow?' he asked. 'My watch ran down this afternoon, and I wanted him to tell me the time so I could set it.'"

### "GRIM VISAGED WAR."

Realistic Battle Scenes Will be Seen With Buffalo Bill's Wild West and Pawnee Bill's Far East.

"The Battle Summit Springs" will be the chief scenic feature with Buffalo Bill's Wild West and Pawnee Bill's Far East when it exhibits in this city. It was in this conflict that Col. Wm. B. Cody (Buffalo Bill), killed Galt Bull and thus turned the tide of victory for the government forces. ## SHEPARD IN LEAD FOR GOVERNORSHIP

Collapse of Gaynor Movement Has Left New York Democrats Searching.

ROCHESTER, N. Y., Sept. 28.—The main who will head the Democratic state ticket this year had not been chosen when the leaders concluded their conference tonight.

But Chairman Dix of the state committee, who last week gave official impetus to the Gaynor boom by declaring that up-state sentiment tended strongly in that direction, said before he went to bed he found among the delegates "undercurrent of feeling" toward Edward A. Shepard.

After mentioning Shepard's name, the state chairman was asked what his attitude was on certain published criticism of Shepard's alleged connection with the American Sugar Refining Company in an advisory legal capacity.

"I have heard the criticism," replied Dix, "but I cannot say that Stimson himself is not invulnerable in the same spot." He served in the office of Senator Root when the

50 PER CENT OF THE POPULATION OF THE U. S.

live in rural districts, remote from physicians or drug stores, and they are obliged to depend upon proprietary medicines to a very great extent.

To the women in these homes such standard remedies as Lydia E. Pinkham's Vegetable Compound come as a boon and a blessing. Records show that it has cured more women of these dread feminine ills than any other remedy.

Phone M. 188

Metropolitan Street Railway charter was drafted.

From Shepard's headquarters came the statement that Shepard had nothing to do with drawing the sugar trust deal. The statement said that the sugar company was incorporated in England in 1907 by James H. Parsons in conjunction with Elmer Todd, who was then a partner of the present Republican candidate for governor, Stimson, and who acted with Parsons as associate counsel.

Mr. Shepard's partnership with Mr. Parsons was dissolved eight years ago in 1902.

Much pressure has been brought to bear on Dix himself to consider the nomination for governor, but he declined.

NO TAMMANY MAN.

Charles E. Murphy reiterated tonight that he had no candidate in sight.

"This is a Democratic year," he said, "and it would be a mistake to split it with pushing personal preferences."

There is no candidate in sight to command the situation. After the convention is seated tomorrow, I hope to see the various leaders and out of that series of meetings to bring the name I want to the convention. Please note that I said present to the convention."

The Democratic League met tonight in the ballroom of the Seneca hotel and put itself on record in favor of the widest type of direct nomination.

James S. Flaxton and Herman Riddick remain strong probabilities for the gubernatorial nomination, while the boom for Martin H. Glavin of Albany sprang into a lively tonight when the hotel committee were pushed with literature describing his qualifications for office.

There was also some talk of Justice Martin L. Keogh of Westchester county.

WHEN THE PUDDEN' PULLED.

Farmer Dodge was of the good, old-fashioned school, and he always knew a feast to his hands at harvest time. It was harvest time, and the feast was about to commence.

Giles was the oldest hand, and the hostess, with beaming cordiality, motioned him to the seat by her right hand. But Giles remained unresponsive.

"Come," said the hostess, "don't be so fastidious, Mr. Giles," he was just given on ordinary occasions—"you've a right to the place of honor, you know."

Giles deliberated a moment, then spoke.

"Thank you kindly, Mrs. Dodge," he said, "but it's all the same to me. I'd rather sit opposite this pudding."—Answers.

ANXIOUS TO LEARN IT.

"I have been an officeholder for 25 years, and no man can show where I ever took a dollar dishonestly."

"See, old man," replied the graffer, "put me wise to your system, will you?"—Chicago Record-Herald.

## FRECKLES

September, Worst Month for This Trouble. How to Remove Easily.

There's a reason why nearly everybody is freckled after the outdoor life of summer, but happily there is also a cure for those ugly blemishes, and no one need stay freckled.

Simply get one ounce of Othine—double strength from the Patterson Block Pharmacy and apply a little of it at night, and in the morning you will see that even the worst have begun to disappear, while the light ones have vanished entirely. Now is the time to rid yourself of freckles, for the cold weather now they will stay all winter and spoil an otherwise beautiful complexion. Money back if it fails.

Watch the Cat in the Bag Every Day

## A Godsend to Sickly Children

Mr. N. L. Duffee, of Helena, Ala., the thankful father of a little baby girl who was made healthy and fat after she was not expected to live, writes: "Duffy's Pure Malt Whiskey is the finest of medicines. I have a girl baby, now 5 months old, who until she was 2 months old we hardly saw any chance of raising her. At that time I procured a bottle of Duffy's Pure Malt Whiskey and gave her a few drops at a time. Now she is acknowledged to be the finest looking baby in town. Baby is still growing as fat as a pig."

Duffy's Pure Malt Whiskey

Can be safely given to children, no matter what age, in small doses. It is just the right thing for them when they have coughs, colds or any throat or stomach troubles that are so prevalent with the children. It is an absolutely pure, gentle and invigorating stimulant and tonic. It is invaluable for overworked men and delicate women.

All druggists, grocers and dealers, or direct, \$1.00 a large bottle. Refuse substitutes and imitations; they are impure and dangerous.

The Duffy Malt Whiskey Co., Rochester, N. Y.  
Kaehler Bros., Distributors.

## JUDGE THOS. J. LENNON ON VISIT TO FRESNO

Is Candidate for Presiding Judge of the Court of Appeal.

Judge Thomas J. Lennon.

Judge Thomas J. Lennon of the Superior Court of Marin county, who spent a couple of days in Fresno in the interest of his candidacy on the Republican ticket for presiding justice of the District Court of Appeals of this district, expressed himself last night as greatly pleased with his reception. Judge Lennon is well known personally and by reputation among the lawyers, and is personally a very genial man, who makes friends readily.

Judge Lennon has had a practical varied and extensive experience as a lawyer, having been engaged in general and successful practice for fourteen years prior to his elevation to the bench. Since 1902 he has been superior judge of Marin county, succeeding Judge Angelo. In his home county he is held in high regard by Republicans and Democrats alike. His nomination for the office of judge by the Republican party in 1902 was unopposed. In 1908 he not only received the Republican nomination without opposition, but the endorsement of the Democrats and Union Labor parties as well.

Judge Lennon was born in Marysville, Yuba county, in 1868. He was educated in the public schools of that city, and also at St. Mary's College in San Francisco. He was graduated from the latter institution in 1888. Later he studied law in San Francisco, and was admitted to practice in 1888. After his marriage in Marin county some sixteen years ago he made his home in Mill Valley, but kept his law offices in San Francisco.

Endorsed by the Lincoln Roosevelt League, Judge Lennon at the primary election received the unanimous Republican nomination for presiding justice of the District Court of Appeal.

As a trial judge he is a pronounced success, and given universal satisfaction. His trials and disposition of cases have been expeditious, and his decisions have been uniformly upheld by the higher courts.

## RESCUING ABANDONED PETS.

Men in Motorboats Touring Maine Islands to Save Starving Animals.

Now that the summer season is over, the Animal Refuge in this city is beginning its full work of rescuing the household pets deserted on the islands. Men in motorboats are sent among the islands of the bay and coast to search for animals abandoned by summer residents when they closed their cottages. The number collected is very large.

Persons who know these islands only in summer can hardly realize what they become in winter. They are then ice-covered ledges, swept by violent storms. The native animals are unprepared, sleeping the winter away, but the creatures left there by summer visitors are wholly shelterless, for the mouth of every hole or burrow is covered deep under the snow. Nature intended that only hibernating animals should spend the winter here, as the food supply is practically at the zero point.

Naturally, the cat is the household pet deserted in largest numbers. Fortunately, few of all animals left on the islands, it is least fitted to cope with the conditions. The cat in the snow is awkward, slow of foot and insecure. Its natural sources of food are gone. Starvation faces it. Now and then a hardy cat survives the winter, but one with a heavily dependent on her lies only the slightest chance. Many tragic little family histories are discovered by those who search the islands.

One cat, abandoned when its owner went back to the city, was found after a driving storm huddled under a cottage piazza for shelter. The snow had drifted in through the lattice so that the mother cat was treated with silent and badly frost-bitten, but the two kittens sheltered under her body were warm and dry. This brave little mother died before anything could be done to relieve her. In another case five emaciated kittens were found on one of the beaches under the frozen body of their mother.

Two cats recently brought in from the islands had had their sufferings aggravated by the collars left about their necks by their transient summer friends. One was found hanging by his collar in the branches of a tree. The other, whose collar had grown much too small for his collar, had gotten one fore foot wedged up through this neckpiece and was found hanging across the island on a three foot, vainly trying to find food. A sailor landing on that shore by chance found him and brought him into the refuge, but not before he had died.

"I couldn't stand it to see the little beggar so hard up," explained the seaman, Portland (Me.) Dispatch to New York Herald.

## DIVIDENDS TO SHOW A GAIN THIS MONTH

The dividends of California oil companies for the month of September will show a decided increase over those of August. If the Thirty-Three oil company's \$100,000 dividend in the latter month be excluded. A number of companies that pay quarterly will make checks to their stockholders in September. The Amalgamated will pay \$50,000, and the Hite Ranch and the Continental are due to make payments. The Mount Diablo will double its usual dividend.

## OIL DEVELOPMENT GROWING IN SOUTH

LOS ANGELES, Sept. 28.—Oil development in this part of the state is going on apace. The report for August shows that there is a total of 1346 wells on ten pump south of the Tehachas, thirty-four completed wells including work at Newport; seventeen old wells being deepened, eight drilling wells shut down and seventeen new rigs up.

Development is limited by the fact that one well can be started by the Amalgamated on its Salt Lake and various holdings under the terms of the lease. All the oil produced in this territory is absorbed here with the exception of an occasional shipment north.

## WESTERN UNION CO. MAY EXTEND FIELD

LOS ANGELES, Sept. 28.—The Western Union Oil Company, operating in the Santa Maria field, has its No. 41 well down 4200 feet and is averaging about fifty barrels of oil a day. No. 40, along the Los Flores line, is down 2220 feet in a brown shale. As this well is beyond the proven line, the bringing in of a well will prove up a large territory for both the Western Union and the Los Flores companies.

## CENTRAL WILLING TO FIGHT.

When Society Woman Complained About Busy Line They Clinched.

Incensed over the continued repetition of the phrase "Line's busy" while she and her guests were delayed at bridge whist because of an absent friend, Miss Hazel Gillen, daughter of John Gillen, prominent horseman and the manufacturer of Fayette City, Pa., last night left her home and her guests to investigate the local Bell telephone exchange and learn the reason why she could not get telephone connection with a young woman she wanted to "call in."

Trouble was found, and plenty of it, when Miss Gillen reached the head of the first flight of stairs at the exchange. A whirlwind in the form of the much-abused "central," Miss Lillian Fisher, enveloped her, and a second later both young women were rolling down the stairs and on to the sidewalk in each other's arms.

With their skirts wrapped about their shoulders the young women took a "death grip" on the sidewalk when they stopped rolling, and to the amusement of a number of men and boys proceeded to pull hair and attempt to choke each other, until one man stepped forward, righted their skirts, and separated the fighters. Hair "rats," side combs and barrettes, and one eyeliner, the ownership of which neither of the young women will acknowledge, littered the sidewalk.

In the meantime the father of Miss Gillen was entertaining the guests at the Gillen home, but within a few minutes the bridge party was broken up when the hostess, with her hair hanging down her back, a deep scratch on one cheek, a black and blue eye, and her evening costume in tatters was assisted to the porch and into the hall, where a maid and her father took charge and carried the young woman to her room.

She has not left the house since. Miss Fisher was asked to resign. She escaped with only a few bruises and one slight scratch. The technical charge made against Miss Fisher by the telephone company is leaving her switchboard while on duty.

—New York Herald.

## NEW BRAND OF HUSBANDS.

Modern Education May Change Ideal of Mate for New Woman.

is modern education going to rob women of what they have always considered the ideal husband?

The sort of mate every woman has hitherto longed for, it is said, is now being made the sort of man who comes straight home on Sunday day and gives his wife what he has drawn, less a few dollars for cartage and cigars, and never troubles himself about household matters, so long as she and the children are comfortable.

The new style of education made such husbands. But what about the tendency of these new creatures in tight living and home economics, even to nervous boys as well as girls? Will the schools, turning out these deeply instructed in the importance of domestic expenditures and household management, won't the coming crop of husbands want have their fingers in the household pie?

However, according to its advocates, the new education is going to improve both men and women to that extent that when husbands get busy on the outside side of things wives will find them actively a stay and comfort. The new economics is supposed to make the ideal husband points out in September, especially with the operation of sewing and cooking. It is a wider scope.

Eating and cooking are productive processes, it is not true, but the new education is a consumption which the home economists movement is at heart devoted to.

And men consume—they're not all bearded women in that capacity. They don't require milk, plumes and lingerie, but they keep a good many people busy supplying them with coats and trousers, diamond balls, golf sticks, wines, cigars, club tickets and restaurant meals. They consume, their share of the plume they bring home from business. Then, when these educators, shouldn't boys be taught how to expend wisely the money they are taught how to earn?

In the Washington-Albion elementary school in Boston there is a model flat for four rooms, and not only the girls but the boys of the graduating grade give a certain number of hours each week to the welfare of that house. It really does seem as if the women of the future were not going to be able to escape domesticity. Husbands, but maybe with the training they will be so efficiently domestic that the women who says proudly "My husband never meddles in the affairs of the house" will change her words. New York Tribune, with abridgement. E. A. S. H. R. is a column.

One of the deepest oil wells in the California fields is the Graciosa well No. 19 of the Refiners' & Producers' Oil Company, Santa Maria field, which is 4620 feet deep. It has a six-inch casing to the bottom and the management of the company is undecided whether to risk a string of smaller casing or abandon the well. This is the longest string of six-inch casing possibly in the State. Because of the fact that there has been no showing of oil the hole will probably be left to its fate.

## Liquid Cures Eczema Where Salves Fail

In regard to skin diseases, medical authorities are now agreed on this:

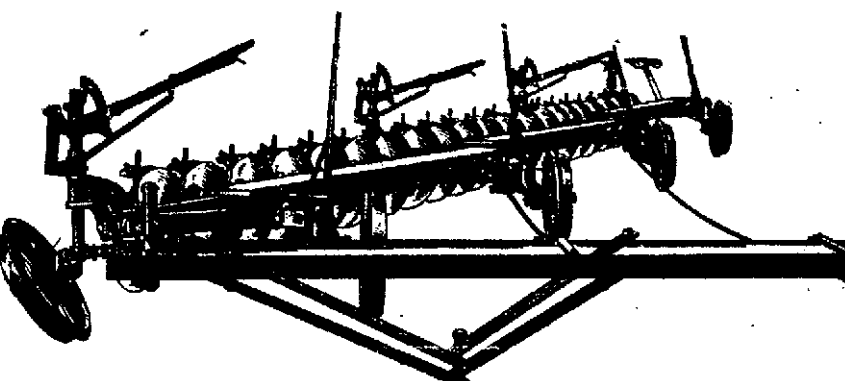

Don't imprison the disease germs in your skin by the use of greasy salves, and thus encourage them to multiply. A true cure of all eczematous diseases can be brought about only by using the healing agents in the form of a liquid.

WASH THE GERMS OUT.

A simple wash. A compound of Oil of Wintergreen, Thymol, and other ingredients is combined in the P. D. D. Prescription. This penetrates to the disease germs and destroys them, then soothes and heals the skin as nothing else has ever done.

A 25 cent trial bottle will start the cure, and give you instant relief. Munroe Drug Co.

## NO MONEY TO PAY COLORADO SOLONS

State Legislature Had Already Spent Its Available Income.

DENVER, Sept. 28.—State legislators were agitated today when they learned that State Auditor Road's recent audit had found the second appropriation bill passed by the legislature allowing \$75,000 for its own expenses.

The bill as approved by the governor read that the sum "shall be paid out of moneys not already appropriated," the conventional form of all appropriation bills.

But according to Auditor Road, he regular session of the legislature had appropriated every cent in sight

and all the money available for two years. Road's bill, therefore, of a new bill passed, the legislators and employees will be without pay.

### PLANS FOR GREELEY CENTENARY.

February 2nd of next year will mark the one hundredth anniversary of Horace Greeley's birth. Mr. Greeley made a great many friends. The old farm and homestead in which he lived when he was a candidate for President of the United States is occupied by his daughter, Mrs. Gamaliel Greeley. The house is a fine specimen of a New York house of the period. The printing press in the old house.

Residents of a neighborhood are preparing to celebrate his one hundredth anniversary. The plans for the occasion have been made and a committee has been organized for the erection of a fitting memorial at Chappaqua. No decision has yet been made as to what form the memorial will take, but it is certain that it will either be a building with a dome or a statue in some beautiful spot frequented and admired by Mr. Greeley during his lifetime. *New York Evening Post.*

## FARMERS IGNORANT OF WATER'S USE

Irrigation Board of Engineers Arrives at Reno, Nevada.

RENO, Sept. 28.—An irrigation board of engineers arrived here today from the West and having just completed an investigation of the Colorado River irrigation project to determine the advisability of the government's issuing \$20,000,000 in bonds for extending reclamation work, the federal board consisting of army officers, members of the reclamation service and secretaries appointed by Congress arrived in Reno today.

Members of the board refused to give out any portion of the report which they will make to the government, but stated that the investigations had disclosed that the Lower Yellowstone and Upper Missouri projects had been disastrously miscalculated to the fact that the farmers did not understand how to handle the water.

All other projects were found in excellent condition and giving complete satisfaction. The Carson-Truckee project was pronounced among the best. The party will go from here to Lake Tahoe to inspect the government's dam.

## TELEGRAPHERS START DEMAND FOR A RAISE

SPOKANE, Wash., Sept. 28.—The Chronicle says today: A movement whereby all commercial telegraphers in the United States shall make a concerted demand for increased wages on April 1, 1911, has been started. The plan is to enlist as many telegraphers in the union as possible, elect a representative from every superintendent's district, the latter committee to meet in Chicago in February next with the general officers of the union to prepare a schedule to be presented to the employers.

The commercial telegraphers claim their average pay is less than \$30 a month, and this for a day of ten to fourteen hours.

## APPOINTED TO SAVE UNCLE SAM MONEY

WASHINGTON, Sept. 28.—President Taft announced today the appointment of Dr. Frederick A. Cleveland, director of the bureau of municipal research of New York, to head a federal staff of experts to investigate the expenditures in executive departments.

### TESTING OCEAN CURRENTS BY MEANS OF GLOBES

Copper Spheres Now Adrift in the Atlantic. No. 1 Found By an Irish Fisherman.

The Wide World Magazine recently inaugurated a novel method for ascertaining something about the ocean currents. Last month a representative of the magazine came west on the Cunard liner *Campania* and set adrift twelve copper globes each containing a "chart of instructions" to the finder asking him to at once communicate with the publishers of the magazine, stating where the globe was picked up, together with the time and other particulars. By comparing this with the latitude and longitude in which the globe was set adrift it is anticipated that much valuable information will be obtained. For each globe there is a reward of \$30, which will compensate the finder for his trouble. Globe No. 1, which was set adrift on August 14th, at 12 noon, by Henry Swanson of Chicago, when the *Campania* was two miles east of the Faial Islands, has been recovered by an Irish fisherman near Skibbereen, County Cork. He discovered it lying in a foot of water in a cove on the south side of Toe Head. There are still eleven globes to be accounted for. No. 4, which was set adrift by Malaga, Melbu and which bears her name, is the most valuable to the finder, as the famous singer added twenty-five dollars to the reward and another five dollars was added by the magazine, making sixty dollars in all. It is believed that a majority of the remaining globes will come ashore on the American coast.

### "MOTHERED" BY A MONKEY.

A few months ago, says a writer in the October Strand Magazine, my son brought home from Zanzibar a small monkey with a very pleasant face and the bonniest brown eyes imaginable. Of course, Jennie, as she is called, is sharp as a needle, and being full of funny ways and mischievous to a fault, provides us with no end of amusement.

At the time Jennie arrived we had a little Irish terrier pup, about ten days old, being suckled by its mother, and from the moment she first saw it Jennie took complete possession of the pup. She guarded it with the greatest care, showed herself ready to fight in its defense, and nursed, petted, and actually kissed it. When moving it about, she would do so, not as a dog or cat would carry their young, but with her arms clasped round it, in the affectionate way a mother would carry her baby.

To such an extent was this strange "mothering" carried that the pup's own parent seemed puzzled as to whom the child really belonged; for, immediately after suckling it, she had to relinquish it to Jennie, who was quite restless and unhappy if kept away long.

And though the monkey had the free run of the garden for hours at a time, she never went far away, but at the least sign of danger to the child of her adoption—either human approach, or that of its own mother, or the house cat—she would instantly leave her gambols on the trees and fiercely resent any interference.

Now that the pup is growing bigger every day we are naturally wondering how he will like being rolled over and pulled about by his foster-mother—and a monkey at that; but we are hoping they will long continue to be the greatest of chums.

# YALE'S 1910 FOOTBALL SQUAD DOES NOT LIKE REVISED RULES, BUT NEW TEAM IS A FAST ONE

LAKEVILLE, Conn., Sept. 27.—Head Coach Ted Coy is highly pleased with the work of the Yale squad here and predicts that it will once more be featured on the gridiron with a strong eleven. The new rules have been tried out, but the majority of the players do not fancy them. It is felt, however, that Yale is as ready for them as any of the other colleges. They will play several sets of foot, lively and light backs, and Yale has an unusually brilliant back field squad, although Captain Coy and Steve Philbin, the stars of the team last year, have graduated. Among the newcomers are

Walter Camp, Jr., Spaulding and Holladay. Philbin, backs of the freshmen eleven last year. Captain Fred Daly, Ed Savage and Elster of the eleven last season and French Robinson and Gates of Lawrenceville and Sharon of Exeter. Of these young men will be relied upon for the distance punting and Savage for the drop kicking. Robinson is the speed boy of the bunch. Yale will

run her eleven this fall on the principle of ending a series of losses into every game, taking advantage of the new rule which allows players to leave the game and then return to it. For ends Yale will use Johnny Kilpatrick and Kelly and Blakeslee, the freshman ends of last season. Paul, who played tackle part of last season, is the former Kenyon college player, and Parker, the star tackle of the freshmen last fall, form a trio of tackles who are expected to fill the gaps vacated by the graduation of Hulse and Liding. For center and guard Yale has Lorne, the freshman center; Hyde and Morris, Bronson, Fuller and Bonnell are the chief candidates for guards. For quarterback Yale is well prepared. Howe, the first string quarterback last year, Pop Corey, who has had two seasons' experience, Morrill, who has played three years at Andover and two years at Yale as substitute; Dyer, the freshman quarterback last year, and Coates, who was ineligible last year, form a very formidable line-up. Any Yale found at the start of a season.

# NEW FOOTBALL RULES SCORE A HIT WITH YALE, HARVARD AND OLD PENN

Heavier Line Is Needed, But Back Field Must Be as Fast as Greased Lightning; Forward Pass and Punting Are Important.

NEW HAVEN, Conn., Sept. 25.—In the opening game of the football season on Yale field today, Yale defeated Wesleyan 21 to 0.

Both teams showed good knowledge of the new football rules. Each side was frequently penalized and few line plays were tried.

The new game showed great opportunities for open play, and chances for perfecting of the forward pass. That a heavy line will be of as much importance this year as previously was shown by the frequent gains made by Yale through Wesleyan's center.

The game also demonstrated that a fast, light team with the use of the forward pass and the punt will have a better chance of gaining ground against a heavier team than heretofore.

The danger of injury also seems to have been lessened and the allowing of an injured player to return at the opening of a new quarter will allow a team to maintain its initial strength throughout the game.

PHILADELPHIA, Sept. 25.—The University of Pennsylvania football team defeated Dickinson college today, 18 to 0. The Pennsylvanians played 50 per cent better football than against Ursinus.

Paul Brown, left guard of Dickinson's team, was injured in the first period of the Pennsylvania-Dickinson game. After examination at the University hospital, it was found that his left shoulder blade was fractured and that he would have to remain in the hospital for several days.

CAMBRIDGE, Mass., Sept. 25.—Harvard opened the football season today by defeating Bates, 22 to 0, in a fast, spectacular game. The new rules worked well. Long end plays and forward passes were well executed, and there were some dashes through open fields. All the scores were made on touchdowns, from which two goals were kicked.

CHARLESTON, S. C., Sept. 25.—Carlisle Indians, 39; Muhlenberg College, 0.

VISALIA, Sept. 25.—The local high school squad is out nightly for Rugby practice and there has been much cheering and cheering over the game. There were thirty-five out the first night and the number has now been increased to forty. Coach Aspin, recently of Bakerfield, says the boys are making a better showing than in Bakerfield and believes they will line up strongly against any school in the league.

## OWEN MORAN LUCKY TO GET DECISION OVER PAL MOORE

PHILADELPHIA, Sept. 25.—Pal Moore of this city was beaten by Owen Moran of England in a six-round bout before the National A. C. tonight notwithstanding that the local lad had almost put the Englishman out in the third round with a vicious punch which landed low and which sent Moran to his knees in agony.

After a moment's rest, the Englishman signified his willingness to go on with the battle, but the men had scarcely set themselves for another punching when Moran again hit Moran below the belt. This time, Moran

walked to his corner and the referee, after warning Moore that he was disqualified for being disqualified, announced that Moran would again agree to go on.

Moran had the advantage in every round except the first and second, which were even. He did nearly all the leading and forced the fighting. His blows had more steam behind them than those delivered by Moore, who did not seem to be at his best. The fight was at catch-weights, but there was little difference in their weights.

DOC. PAYNE KILLS SELF.

CLEVELAND, Sept. 28.—Dependent because his wife refused to give up her suit for divorce and return to him, James Payne, former trainer of the Cleveland baseball club and a well-known wrestler, pugilist and actor, went to his home today and in the presence of Mrs. Payne and her mother committed suicide by shooting himself in the right temple. Payne was known in sporting circles all over the country as "Doc."

## THE YOUNGEST SMUGGLER.

Only Fifteen, But She Dodged Declaration Like a Pro.

The youngest smuggler that has come into port since Collector Loeb became the terror of the wealthy feminine smugglers arrived today, when 15-year-old Miss Clara T. LaPlace of New Orleans, got in the Friedrichs der Grosse, tried to make the customs inspectors believe that the handsome gowns in her trunk which had been declared had been made by a New Orleans dressmaker.

One thing the young girl did not know, however, and that was that Acting Deputy John P. O'Connor had been a dress making expert with Redfern before he went into the government service. As soon as his eyes lighted on some of the dresses in Miss LaPlace's trunk he knew that one of them was worth more than the \$153 the little girl declared.

After some argument and counsel from the deputy inspector, Miss LaPlace finally admitted about \$100 worth of jewelry and additional. Her trunks were then ordered to the public stores, and she herself ordered to appear at the custom house at 11 o'clock before Special Deputy Surveyor George P. Smythe. Accompanying her were her aunt and chaperon on the trip abroad, Mrs. E. L. Beltran, and her two small cousins, Hilda and Basil Beltran. Only the girl had made an attempt to smuggle.

After a conference she was held for a further examination. This time she was told that if she did not declare the goods, she would be arrested, but her property will undoubtedly be confiscated by the government.

Miss LaPlace is small, weighing about eighty pounds, has dark hair and eyes, and says she has an independent income—New York Globe.

## TARIFF ON WOMEN'S THINGS.

Whether or not with men there exists some consciousness that smuggling "once stood as a political protest," with women it is not at all a political protest. It is a game. Women enter into it almost as much as into bridge. Getting things through is just a variety of bargain hunting, not in the least the same—seemingly—as abstracting so much cash from the till of the postoffice.

One might say that, in women are sense and reason, and some ex-tension may be found in this—that Mr. Dingley, in drawing up his tariff bill, bore severely on things which are women's things. One fair principle to be carried out in any scheme of revenue should be in tax valuations and luxuries. Mr. Dingley evidently regarded women's decorations as both.

At all events, hats, alpacas, cosmetics, beads, galleons, lace, embroideries, spangles, sealings, fangs, and jewelry were subjected to a tax higher in average for all other goods whatsoever. They had to pay the expense of the establishment of the navy (\$12,000,000), the judiciary (\$172,000), and the total expense (\$5,500,000) of collecting all customs duties along every coast and border line. Under the Aldrich tariff no deductions were made on goods for women, with the exception of books and toys and sewing machines. On the rest, rates were increased; besides, their chocolates were taken from the free list.—Franklin Clarkin, in Every-body's.

## INDIA'S FREE DISPENSARIES.

Coolies Prove Difficult Patients. Although the Indian government has established many free dispensaries for the poor, says a writer in October Wild World Magazine, there is still plenty of work for these run by private parties. Every morning, from 7 to 9 o'clock there assembles a crowd of dirty, shivering coolies of the lowest caste. Having secured silence, the dispenser, whose knowledge of Hindustani is probably not too perfect, endorses the diagnoses of the cases by dint of much questioning and gesticulating. The native is not satisfied with medicine alone. He expects to have his pulse felt and his name written down in the day-book, otherwise he feels he will not recover. On the other hand, he is not at all anxious to be bandaged, and "poor" objects to being poulticed. Their way of securing a sore or cut is to fill it with dirt. If this is not effective, the blame is put on the doctor. The natives have a curious belief that if a plate is placed over the spot bitten by a snake it will turn over if the snake was a poisonous one. If it does, the victim's friends stuff his mouth with onions. To keep his spirit from getting away, bottles are then emptied by the dispenser, for the sufficient reason that the wily native is apt to come just in order to get the bottle, and will throw away the medicine as soon as he is out of sight. If he has not a bottle of his own he brings some substitute, such as a hollow piece of bamboo cane, in which to put the medicine. It is not advisable to give an ignorant coolie more than a few drops of medicine in his bottle at one time. He may reason that if a little is good a quantity would be better, and drink all you have given him at once. When you become known as the dispenser, your evening walks are liable to be interrupted by patients who want to show you some legs or cuts, or you may be perfumed upon by a tame naked brown baby—perhaps held up by one leg for your convenience.

## AUTUMN.

Along the meadows' daisied rim,  
The verdure droops and dies.  
The skies grow dark, the sun grows dim.  
The aster stricken lies  
Golden and brown, the garden shows  
No flower to charm or cheer.  
While every wind that westward blows  
Proclaims the autumn here.

The robins to their nests have fled  
In Southern dell and dale.  
And through the stubble brown is sped  
The storm call of the quail:  
The bees to honey cells have come,  
The fiery shrike in fear,  
Death waits so near, so near for some  
When autumn time is here.

"Neath skies of June my heart was gay,  
I wandered far and free;  
Life's purpose to make holiday  
Where blossoms tickle the sea.  
But there's a call in frost-filled air,  
And duty's voice is clear,  
I onward go to do and dare  
When autumn time is here.  
—Lillian Mitchell, in Columbian Magazine.

A couple of young men on the Market street viaduct the other evening offered a new version of an old saw. After they had passed a couple of Auburn-haired damels, one of the young men took him stand on the curb at gazed up and down the bridge.  
"What are you looking for?" inquired his companion.  
"Nothing," the red-headed girl, the young man answered. "I'm trying to see a white automobile."—Youngstown Telegram.

## CORNELL A COLLEGE FOR POOR YOUTHS

In his reminiscences in the October McClure's, Goldwin Smith speaks of Ezra Cornell's special object in founding the University.

"Cornell's special object was to put within the reach of poor youths the university training which in his own case poverty had denied. He thought that a young man might maintain himself by the labor of his hands while he was undergoing a university education. This part of his scheme, after fair trial, failed and was abandoned. Mental and intellectual labor draw on the same fund of nervous energy, which in ordinary cases cannot supply both. Ezra Cornell himself was a man of extraordinary vigor and power of work. In the early days of the University notices were put up for students of employment in tending masons. But this soon came to an end. I am afraid I rather offended the good man by counselling young English mechanics against a too hasty acceptance of a general invitation which he had sent them. I thought I knew better that he could well effect his invitation would have upon the imagination of my young fellow countrymen, who would fancy that in being admitted to a university they were going to be raised at once socially to the level of Oxford and Cambridge. The rush might have been overwhelming.

"Cornell, however, retained so much of his original character as to become a school of practical sciences more than of literary culture, though the student of practical science probably takes away that which raises him intellectually above the mechanic, and enables him if he rises in life, as so many of them do, to fill his place well."

## REFLECTIONS OF A BACHELOR.

Plucking the penicils between the soul.  
A good way not to understand a woman is to be married to her.  
Either the average man is in doubt or trying to be.  
The bigger the man could be the bigger he could get for being called one.  
Explanations never explain because they try to make all around the best explanation.—New York Press.

## ENVOI.

Back from all the trails we blazed,  
Back to town again,  
Heartily full against the cold of the autumn rain,  
We who scorned the marigolds found our love anew.  
Stooped to lift the buttercup brimming with the dew.  
We, once free of goldenrod, drowsy with the bloom of the scarlet poppies, turn cabin'd in a room.

How the days were kind to us, how the world was good,  
When we left the canyon streets eager for the moon,  
That the great waste mother breathes into new desire,  
Ah, but there came warmth to us from the sunset fire.  
Naught we cared when underfoot strawberries winged red,  
And we paused near rock and fern eager to be fed.

Yesterday we saw the dawn, ray-flushed, rose,  
Sigh, and life himself to gaze into our sleepy eyes.  
Turn to gold the sunset leaves, light knew the green,  
Glowing from the dewy lawns in their velvet sheen—  
We, the newly rich in mind, rich in eye and brain,  
From the desperate days and nights of the town again.

## A DECOY.

The attention of a hansom cab driver was called to a purse lying on the mat of his cab as he "traveled" along Florencia. He winked and said:  
"Well, sir, when trade's had I put it there. It's empty—and you've been surprised what a lot of people take short drives in my cab. I've had four fares within the last hour."—HD-Bits.

## Taking Hold.

Father: I must study that young man of yours, daughter. I want to see how he takes hold of things that interest him.  
Daughter:—All right, dad. Just pop out suddenly on the piazza some night.—From the "Chicago Daily News."

## "TIME."

The learned counsel was annoyed at being interrupted, so warmly exclaimed, "I shall speak, sir, as long as I please."  
"You have already spoken, sir, longer than you please!" retorted the other side.—From Blue Bird.

**The Lamp That Reduces Your Light Bill**  
is the **HYLO BULB** for it's  
**2 in 1**  
By merely pulling the string. We sell them now for 20c. Let us tell you the reason why at our Retail Store,  
1817-1819 TULARE STREET.  
**San Joaquin Light & Power Co.**

**For Sale or Exchange**  
800 acres, 8 miles northeast of Red Bluff, on the Sacramento river; every acre covered with first-class water right; 110 acres peach trees, 10 years old; 40 acres prunes, same age; 20 acres alfalfa, first class; 100 acres barley; 50 acres plowed and ready for planting; 40 acres cut but not cleared; balance in timber that will bring enough to pay for clearing and have a big profit; a good 5-room house, barn, sheds, tracts and boxes; 6 mules, 4 horses, chickens, implements, etc.

change to responsible parties. H. Homsey,  
1 St.

## RUDY RESIGNS AS PRESIDENT OF AGENCY

E. J. Bullard Elected to Fill Place and Carry on Fruit Business.

## BACHANT TO RETURN

Rudy Remains on Board of Directors While Giving Up Management.

H. V. Rudy yesterday resigned as president of the California Fruit Agency. E. J. Bullard, former supervisor of this county, was chosen to fill the place thus made vacant. The resignation was tendered at the meeting of the directors held in yesterday and the following resolutions in the affairs of the company which have lasted for about a month. It is stated to be tantamount to the securing of control by those who have recently been opposed to Rudy's connection with the management of the concern.

Rudy remains as a director of the company, though the active management of its affairs passes now to Bullard. The resignation was made formal, and was accepted by Rudy on the grounds that he believed it best for the affairs of the company that he should step out of the leading place. He said that he had been "suffered" in the position, and that he believed that he would be better for the company if another man should assume the management.

J. L. Bachant, who recently resigned his position as treasurer and a director of the company, will withdraw this resignation in the course of a complete reorganization of the affairs of the management. It is understood, and will continue to act as active charge of the business," said Bullard yesterday after his election, "and want the growers to come in and fulfill their contracts, as we are going to fulfill ours."

"I am going to take active charge of the business," said Bullard yesterday after his election, "and want the growers to come in and fulfill their contracts, as we are going to fulfill ours."

## FARMERS' UNION GETS PRIZE UPON EXHIBIT

Blue Ribbon and Diploma Awarded Fruits at Pure Food Display.

Announcement was received yesterday morning at the headquarters of the California Farmers' Union, Inc., that a blue ribbon and diploma has been awarded the exhibit of the union at the International Pure Food Exposition now in progress at San Jose. The exhibit includes dried fruits, raisins and other goods which are handled by the union organization.

There are about ninety exhibitors in the main building of the exposition, which is the second of its kind ever held. The union exhibit was pronounced A-1. There has been considerable curiosity over the prizes in this exposition, especially as the exhibits cover so wide a field.

## PORTERVILLE MEN IN AUTO ACCIDENT

J. C. McCabe, undertaker, and F. E. Beards, Wells-Fargo express agent, both of Porterville, are at the Burnet sanitarium suffering from injuries received in an automobile accident Tuesday night near Herndon, when they drove into an irrigating ditch. McCabe has two broken ribs, while Beards has a dislocated shoulder blade and painful lacerations about the body. Both men were badly bruised and shaken up. McCabe and Beards were returning to Porterville from a hunting trip in the wilds of Siskiyou county.

## ARREST JAPANESE FOR FORGING CHECK

Accused of passing a forged check for \$200 on a local Japanese merchant, S. Sakimoto was arrested yesterday at Parlier by Sheriff Chittenden on a charge of forgery. The Jap was lodged in jail. The check was made out on a Reno, Nev., bank.

And photo supplied by Baker & Co., 1123 J. Street.

## Professional Skill

Is the important consideration in choosing your optometrist. The plain glass used in a pair of lenses has about the same relative value as the wood used in making a rare old violin.

The skill which fits these crude materials to perform their allotted functions is the element of greatest value.

People who have tried the "cheap" ones realize this fact. We offer you the finest optical service obtainable, coupled with prices that are right, fair to you and fair to us.

Our guarantee of satisfaction applies to every patron who enters our doors.

J. M. Crawford & Co.  
Optometrists and Opticians,  
1123 J. STREET.

## ARRANGEMENTS MADE FOR J. C. NEEDHAM'S FIRST MEETING

Johnson's Visit to Fresno to Mark Beginning of Rousing Campaign.

Gubernatorial Candidate Is to Make But One Speech in This County.

Plans for the reception of Congressman J. C. Needham at Reedley on Saturday have practically been completed, and the entire day is being devoted to the opening night of his campaign in this county.

A committee of Reedley Republicans has taken charge of the arrangements there and the opening meeting is being widely advertised. Needham will arrive in Fresno late Friday night and will leave on Saturday morning for Reedley, accompanied by Chester H. Rowell, who will also speak at the meeting on Saturday night. In the afternoon, Needham will be the guest of the Reedley Republican club at an automobile ride through the adjoining country where several objects of interest will be visited.

Needham will make his first address in Fresno on October 7th, a week from Friday. A. L. Coxwell, the Democratic candidate for Congress, will also be present in this city on that date.

The present congressman will close his campaign, as in former years, with a big meeting at the Barton Opera House on the Saturday night immediately preceding the election on November 8th.

Johnson's visit to this city tomorrow will be the signal for a big outburst of Republican enthusiasm, which will in reality start a whirlwind campaign to be conducted by the county committee, legislative, county and township candidates of that party.

The meeting at the Barton Opera House will be purely a Johnson meeting and the only address of the day will be delivered by Johnson. Johnson, J. C. Bachant, chairman of the Republican club central committee, will be chairman of the evening. The Republican Club will furnish special campaign selections for the occasion.

As the only meeting which Johnson will address in this county during the present campaign, it is expected that the opera house will be filled to overflowing with his supporters.

Johnson speaks today at Crows Landing, Newman and Modesto, and tomorrow will deliver addresses at Turlock, Merced and Madera, before coming to this city.

## DIRECTORS HEAR GRANGER'S REPORT

The directors of the Fresno-Hanford Interurban Railroad Company held a meeting in the offices of Everts & Ewing last night to receive the report of F. S. Granger and W. D. Mitchell, who have just returned from New York city. The directors last night refused to state what has been done as regards the preliminary plans for the building of the road, or what has been done regarding the financing of the road.

## MEXICAN RUNS AFOUL OF THE FEDERAL LAWS

Opens Letter, Changes His Name; Cashes Money Order; Lands in Jail.

Although he is specifically charged with cashing a United States postal money order for \$16 when the money was not due him, Juan Rivera, a Mexican, now in the local jail, is guilty of committing four federal offenses. Rivera, alias Martinez, was arrested in Bakersfield Tuesday night by Deputy United States Marshal Joe P. Coyne of this city. Rivera was brought to Fresno on the Owl train yesterday morning and lodged in jail.

A few weeks ago, Rivera was authorized by Fannie Valesquez, an aged Mexican woman, to open and read to her a letter from a relative. While reading the contents of the letter, he discovered that it was a postal money order for \$16.

It is alleged that Rivera went to the postoffice and represented himself as Juan Martinez. He secured the registered letter, signing for it under the name of Juan Martinez, as agent for Fannie Valesquez. Then Rivera cashed the postal order under the same name.

The money was given away when Fannie Valesquez received a second letter inquiring whether she had received the money. This time the woman secured the services of another person who read the contents to the woman.

Fannie Valesquez took the matter up with the postal authorities with the result that Rivera was arrested. The money orders were made out by the postmaster at Colton, California. The Mexican was taken before the United States Commissioner at Bakersfield and held under bonds of \$500.

## SEEKING FOR HEIRS TO MINERAL LAND

H. P. Knoblock of Pittsburgh, Pa., writes to the Republic to inquire the whereabouts of John Peters or any of his heirs. Peters, with his son, Frank, is said to have located near Fresno thirty years ago. Peters or his heirs have an interest in a forty acre farm in Pennsylvania, said to contain valuable mineral deposits.

## AN IMPORTANT FIRE INSURANCE DECISION

On account of the rapid growth of this department of their business, Noble Brothers Company have decided to give their entire time and personal attention to the writing of fire insurance and other insurance, and to looking after country and city property for owners, renting property and collecting rents. They will be pleased to advise with anyone on these important matters. Telephone Main 4, or call at the office in the Forsyth building of Noble Brothers Company.

## CONFERENCE GIVEN OVER TO YOUNG PEOPLE

Anniversaries of Sunday School Board and Epworth League Held.

## REV. MASON TONIGHT

Dr. Blake Roasts Infant Damnation; Talk Oregon Liquor Fight.

With Sunday school and Epworth League work to the fore, the Southern California annual conference yesterday devoted the second day of its session in this city to the problems of the young people. Epworth League and Epworth society was held in the afternoon and an anniversary of the Sunday school board was held in the evening, with an address strongly attacking the doctrine of infant damnation and the hereditary curse of mankind on sinners' children, delivered by Dr. Edward W. Blake of New York, assistant secretary of the Sunday school work of the church.

The affairs of the day were centered into the groves of purely church interest and affairs there. However, with speeches unusually good and replete with original thought, and with a deal of enthusiasm at each session of the day, yesterday proved a time quite worth while to the members of visitors here to attend the session.

E. M. Randall of Chicago, general secretary of the Epworth League work of the denomination, in his talk at the afternoon anniversary of the Epworth League, called attention to the fact that the residents of the state of Oregon in the Temperance fight made there.

Dr. Blake expanded the child nature from the standpoint of heredity and human tendencies toward vice, revealing what really leads to sin and crime, influences that warp human nature. He declared that many boys who land in the jails and houses of correction should first have been taken to a hospital.

Prof. M. D. Buell, M. D., of Boston University, opened the session yesterday morning at 8 o'clock with a lecture on the Epistle of Philomena, one of Paul's letters. The professor declared the epistle one of the most valuable and seldom read, and proceeded to point out its prophetic teachings.

The sacrament was administered at 9 o'clock, with Bishop Edwin S. Hughes of San Francisco presiding. The morning business session of the conference was taken up largely with introductions of the various secretaries and other officials of the church present, and short talks by each. The regular standing committees of the conference were also elected. The growth of the book department of the church was outlined by Dr. Mauns of New York, who has charge of this work. Drs. Randall and Blake also spoke.

In the afternoon the Epworth League anniversary was addressed by Dr. E. M. Randall. He touched on the work which the organization may do and has done in places, stating that such work in the home sphere of the church. As an example he told of the Oregon situation, where every league president was swung into line on the temperance fight making a strong factor in the campaign.

Rev. Harcourt W. Peck, superintendent of the Fresno district, gave the evangelical talk of the afternoon, at 4 o'clock.

During the afternoon a round table session of the Epworth League was held in the First Presbyterian church, presided over by Dr. Randall. The question of legitimate social amusement for young people was brought up. Dr. Randall advocated clean, healthy amusements, like the like, and not wanting to antagonize members of the church with more right notions on the subject of pleasurable pastimes.

LARGE EVENING CROWD. The church was crowded for the Sunday school anniversary in the evening. A vocal solo was furnished by Mrs. Connelly and a violin offering by Mrs. Watson. Dr. Broadbeck, superintendent of the First Methodist church, Sunday school of Los Angeles, acted as chairman of the meeting, introducing Dr. Blake, the speaker.

Dr. Blake confined himself to the subject of saving of children. He took the ground that all children are born spiritual whole and a part of heaven, but also provided with a bodily shell, which bears the taint of heredity and feels the influence of environment. There is a war between these elements, and the speaker stressed the importance of assistance to the spiritual life.

Among the things he said were these: "It is our business to keep the children in the kingdom of heaven, where God puts them."

"The doctrine of evolution doesn't disturb me. I don't care how slowly they link me to earth. There is nothing that links my soul to the animal creation."

"God is not in the business of sending soiled souls into this world. If that were so it ought to stop."

"Many a boy goes to a jail or house of detention who should first go to a hospital."

"Over 75 percent of the children of the public schools suffer from physical ills."

"Some children tell falsehoods, where there is nothing immoral in their lies. They don't see clearly."

"The child is the most religious member of the family."

He dwelt on the effects of physical and spiritual environment on the child mind, on the force of example versus words, but stated that these two alone are not sufficient for the salvation of the child. The spirit in its struggle with the flesh needs a reinforcement, and this the exhibits thus far received are even double those ever before received at this stage of the game—and there is plenty of room for individual exhibits, even though some of the wealthiest concerns of the world—namely the Standard Oil Company—are being called to exhibit in this building, or an improvised booth outside the main pavilion, simply because the demand has been too great. This, however, does not mean that individual exhibits can not be cared for in the regular way. On the other hand, the work of the enter the better.

A telegram was received from the Shraders last evening from Washington, saying they would ship their big herd of Dutch Boiled cattle to the Fresno Fair, having captured all the prizes in the far north and are now anxious to do more blue ribbon to their list.

## BROKERS STATE RAISIN SITUATION'S UP TO THE GROWERS

Wire If Coast Holds Firm, Prices Are Bound to Advance.

Raisin Stocks Low, and No Prunes Nor 'Cots in the Country.

That if prices are maintained firmly on this coast the price of raisins will rise through a demand for the goods in the United States and Canada, and that a coteries of brokers for some unknown reason is bearing the situation strongly in the opinion on the situation advanced by James H. Baker and Company of Chicago, big brokers handling a dried fruit business.

A telegram received yesterday from these people states, in outlining the present status quo, that stocks of raisins, both loose and seeded, are now very high, the highest the East. This is coupled with the fact that the heavy consuming period is still before the trade, with a steadily high European crop in all fruits, and only California to look to for a supply.

The message states that there are no prunes nor apricots remaining in the country, and that peaches are closely sold up.

The telegram concludes by saying: "If prices are maintained firmly on the coast, a heavy demand for raisins will develop from the East and Canada, and prices will advance. Some brokers, for unknown reasons, are trying to demoralize the market."

There is declared to be no sign here of weakening on the growers' part, and with trading yet held up, waiting for something to break, the tone maintained is strong.

Brokers who are not interested on the bear side are responsible for the statement that the jobber should begin his buying this week.

## KICKED BY HORSE, PAINFULLY INJURED

While attempting to back his horse from a hitching post at the corner of Broadway and Elm, a rancher, narrowly escaped death when another horse at one side, belonging to J. H. Hayes, became frightened and rearing upon his hind feet struck Elm on the head with his forehead. The rancher was hurled to the ground and as he lay stunned the horse kicked him a glancing blow on the head. Elm was taken to the office of Dr. W. P. Miller, where his injuries were dressed. An examination showed that his scalp had been badly lacerated and several stitches were necessary to close up the wound.

## MUST TIE HORSES SAYS CHIEF SHAW

Chief of Police Shaw last night issued orders to his patrolmen to enforce the city ordinances against leaving horses untied on the streets and permitting automobiles to stand in alleys, thereby blocking the passage. Chief Shaw says these ordinances must be enforced to the letter.

## FRESNO MERCHANTS TO CLOSE ON WEDNESDAY

Everybody Will Go to the County Fair on That Day.

"Every business house I visited today readily and gladly signed the petition to close their respective places of business at noon Wednesday, October 31, in honor of Coalinga-Fresno-Fraternai Order Day," said Vice President J. E. Dickinson of the Fresno Fair last night.

"In all my experience in Fresno Fair matters," continued Mr. Dickinson, "I have never seen such a concerted action on the part of the business men of Fresno to make the coming fair a huge success. This is plainly indicated by the action of the banks, each of which will close its doors on Coalinga-Fresno-Fraternai Order Day."

Now that the boosting trips are practically over, the enthusiasm over the fair can be plainly seen on every side. All the towns that have agreed to support the fair are practically ready to make their shipments. All of them are getting up special literature bearing on the subject, particularly "stickers" advertising the special day that particular town is to close its stores and schools and move away on special trains. In Coalinga, for instance, all the stores will close and in addition, the daily papers will probably close up shop and come to Fresno.

Letters from Dinuba, Reedley, Sanger, Fowler, Selma, and Madera are being daily received by members of the Board of Directors, plainly showing that Fresno is going to have a real fair, in fact, the best ever known in the San Joaquin Valley. If any additional proof were needed to substantiate this, it is only necessary to see that the exhibits thus far received are even double those ever before received at this stage of the game—and there is plenty of room for individual exhibits, even though some of the wealthiest concerns of the world—namely the Standard Oil Company—are being called to exhibit in this building, or an improvised booth outside the main pavilion, simply because the demand has been too great. This, however, does not mean that individual exhibits can not be cared for in the regular way. On the other hand, the work of the enter the better.

A telegram was received from the Shraders last evening from Washington, saying they would ship their big herd of Dutch Boiled cattle to the Fresno Fair, having captured all the prizes in the far north and are now anxious to do more blue ribbon to their list.

## BELL-SPELLACY CLUB LISTENS TO SPEECHES

W. D. Foote Says He Never Did Care Particularly to Win.

At a meeting of the Bell-Spellacy club last evening at Wainwright hall on 1 street, W. D. Foote delivered the principal address. Foote stated that he never did care particularly to win, and that he was a good deal of an enthusiast. He was shown throughout several campaign songs were introduced and a pleasing musical program was given in addition to the addresses.

W. D. Foote made the principal talk of the evening, but it was not to any great length. He replied to the statement which has often been made that the Democratic party is not constructive but destructive, by stating that Thomas Jefferson, a Democrat, wrote the Declaration of Independence, and that James Monroe, another Democrat, is responsible for the Monroe doctrine, and pointed out that these facts contradicted the oft-repeated statement, "First came the Democrats, then the Republicans." He declared that the change of the United States had been made under Democratic Presidents. The Louisiana Purchase was made under a Democrat, and California was acquired during Democratic rule.

After Foote then went on to point out that the leaders of the Democratic party who have been chosen to fill positions in the government of various cities and states have never been found wanting, especially mentioning Franklin K. Lane of California, James L. Phelps, Mayor (Mayor of New York), Thomas Jefferson, James Monroe and Andrew Jackson.

That the Republicans are fairly in their right mind, he declared, and he was informed why the party did not reform when Guage and Gillet were elected.

After paying a personal tribute to the personality of Theodore A. Bell, who, he said, had been clean from hoodlum, Attorney Foote closed by remarking that one couldn't fool the people. They could not be fooled in Maine, he said, and Roosevelt couldn't fool them in New York by a compromise in the state convention.

Manson E. McCormick, A. L. Ayresworth, P. M. Lane and others contributed to the speaking during the evening, also.

The program was opened with a piano selection by Sumner Glasgow. Immediately following the speech of W. D. Foote, Joaquin Truchet, a youthful singer, entertained the audience with two vocal selections which were enthusiastically received. Fred Miller, who had heard in vocal selections and Paul Soule added his share in the way of a vocal solo to the musical program.

Arrangements for the reception of Theodore A. Bell, on the part of the Bell-Spellacy club, were completed at the meeting last night. The club will meet at the court house park at 9:45 on Tuesday morning and march in a body to the depot.

On his way to Visalia, Tuesday afternoon, Bell will speak at Reedley and Sanger.

## OPENING RECEPTION AT Y. M. C. A. TONIGHT

As the opening event of the winter's activities, the annual reception of the Y. M. C. A. will be held at the association building this evening. A host of invitations has been sent out for this event, and the general public is invited to attend, also. A program has been prepared, the building properly decorated for the occasion, and every preparation made to render this opening affair of the year memorable. It is felt that on the success of the opening reception depends somewhat the tone of events through the year, and effort is never spared at this time.

The program this evening will include an address of welcome by President W. J. Kirtland, a selection by the Mandolin Club, a vocal solo by Miss Leora Schaeffer, a piano solo by Miss Truxes, a reading by Wallace Barr, vocal solo by Miss Hazel Bell, another selection by the Mandolin Club, and a vocal solo by Herbert McDowell.

## BOYS' CLASSES ARE LARGEST ON RECORD

The Y. M. C. A. is more popular with boys this year than at any time in its history. When the prep class begins Saturday all the boys' classes will be under way. The intermediates, who met Tuesday evening at 7:30, numbered 33 as against 15 for last year; the Junior A's showed 24 as against 23, while the Junior B's numbered 40 as against 22. Physical Director Fee is very much pleased with the interest manifested among the boys looking forward to a most successful year's work.

## BEATEN BECAUSE HE REFUSES RIDE

The refusal of Ed Wilkinson to give two men a ride because his buggy was full, was responsible for a beating which he received at their hands Tuesday night, according to a story told by Wilkinson yesterday to Judge Briggs. Wilkinson swore to two John Doe men, who were the first to be beaten. The injured man stated that as he was leaving for his home Tuesday night, two men accosted him for a ride and he took them in. Two other men came along and asked for a ride, but he refused, saying his buggy was full, whereupon one of them started toward him. Wilkinson said he struck him with a whip and that the two, assisted by those in the buggy, beat him up badly.

## JUDGE LAWLOR TO COME HERE TODAY

Judge W. P. Lawlor of San Francisco, well known as a trial judge during some of the graft prosecution cases of the Bay City, who is a candidate for associate justice of the State Supreme Court on the Republican ticket, will arrive in Fresno today for a short stay here.
